

COMPETITIVE ENTERPRISE INSTITUTE

The
Competitive Enterprise Institute
is offering
Internships
for the Fall 2002 semester

Interns at CEI are responsible for research, writing, issue tracking, and assisting policy managers, as well as some administrative functions. Candidates must have a good understanding of free market principles and policy approaches.

Our research and advocacy focuses on economic and regulatory issues. The three major policy programs we feature include:

1. High Technology and The New Economy (Antitrust, Intellectual Property, Electronic Privacy, Telecommunications, and Internet Commerce).
2. Health and Safety Regulation (Food Safety, Pharmaceutical Drug and Medical Device Safety, and Fuel Economy Standards).
3. Environmental Studies (Global Warming, Energy Policy, and International Environmental Issues).

We encourage top students interested in public policy research to apply. For application instructions, please visit: <http://www.cei.org/pages/interns.cfm>.
