Washington, DC 20036

Re: FRA File No.: FOIA-11-237

Dear Mr. Scribner :

This letter acknowledges receipt by the Federal Railroad Administration (FRA) of your Freedom of Information Act (FOIA) records request seeking: All records and documents, internal and external communications and other material in the FRA's possession which meet the descriptions of record relating to Congressional Liaison, Central Valley High-Speed Rail Corridor (See Incoming Ltr).

We have assigned your request the FOIA file number indicated above and are initiating a search of the agency's files for responsive records. Please be advised that the FRA is currently experiencing a high number of FOIA requests and is addressing backlogged requests with all due diligence on a first-in, first-out basis. Your request will be addressed in the order it was received. We regret any inconvenience caused by the delay.

If you are interested in railroad accident data or reports, including railroad supplied accident reports for specific accidents you can access these materials through the FRA's web site at: http://safetydata.fra.dot.gov/officeof_safety/. FRA has also placed its completed FRA Headquarters-Level Railroad Accident Investigation Reports for accidents beginning with January 2005 on our website at <http://www.fra.dot.gov/Pages/1696.shtml>. All of the accidents that have been or are the subject of a headquarters-assigned investigation are identified and reports for completed investigations are available. It typically takes six to nine months from the date of the accident for a report to be completed. FRA's website is updated regularly as new accidents are assigned for investigation and additional investigation reports are completed.

If you are able to satisfy your request through the website, please let us know so we can focus on other pending requests. If you have any questions regarding the FOIA process, please contact me at (202) 493-6065 or betty.watson@dot.gov.

Sincerely,

Betty J. Watson
Administrative Staff Assistant
