Methodology

- Online survey among 1,200 registered voters nationwide conducted by CRC Research September 23 – 27, 2021. Respondents were selected randomly from opt-in panel participants.
- Sampling controls were used to ensure that a proportional and representative number of respondents were interviewed from such demographic groups as age, gender, race, and geographic region.
 - Gender breakdown: 48% men – 52% women
- $\pm 2.83\%$ overall margin of error at the 95% confidence interval for overall survey. M.O.E.s for subgroups are larger.

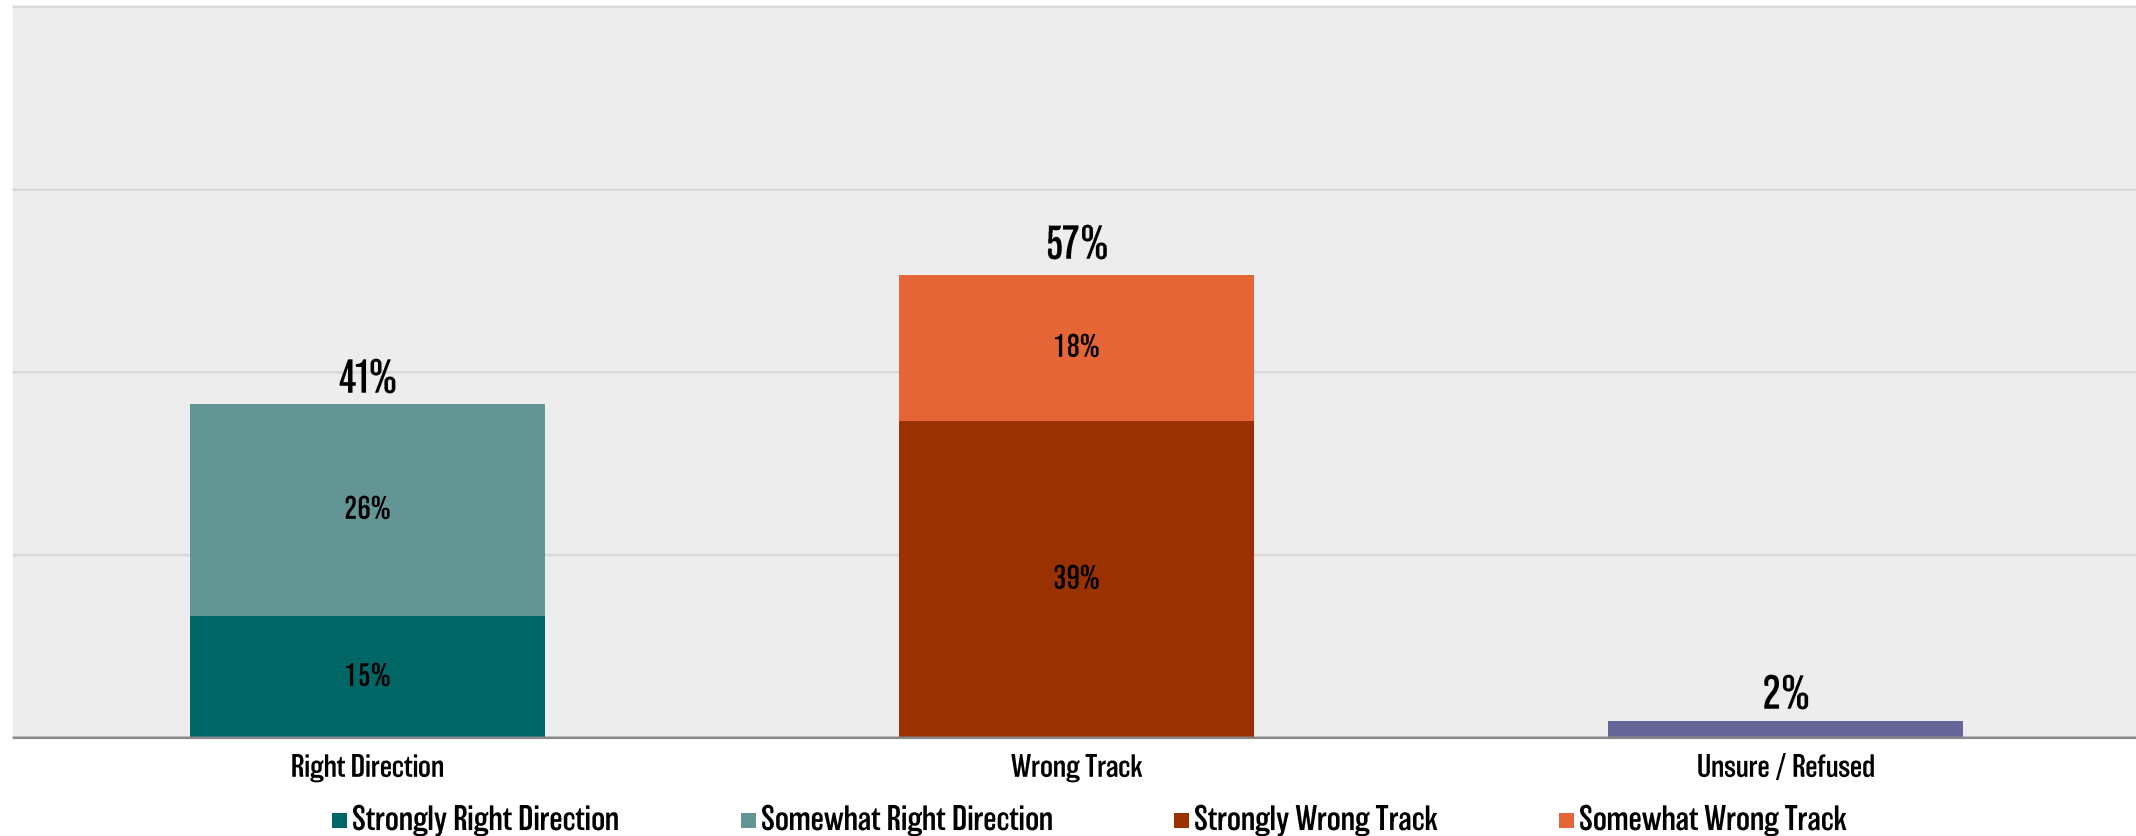

Do you approve or disapprove of the way Joe Biden is handling his responsibilities as President?

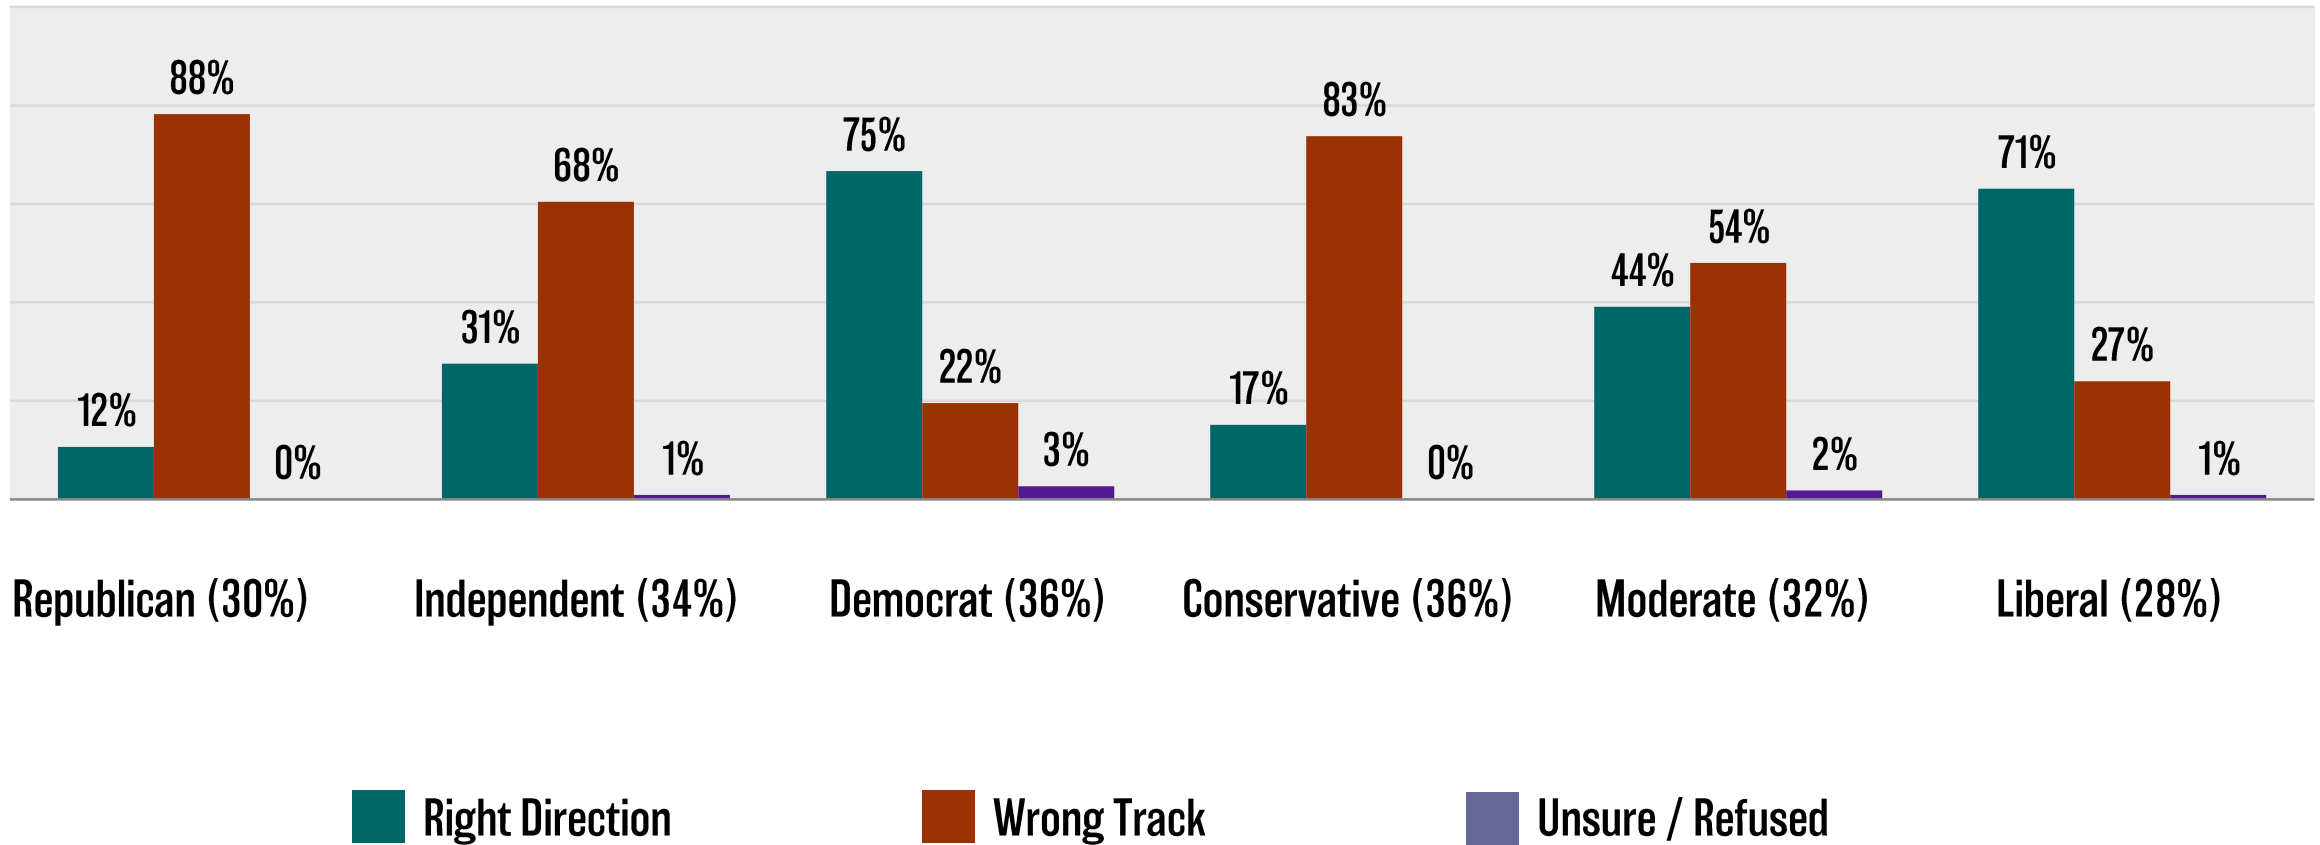

Biden Approval by Key Demographics

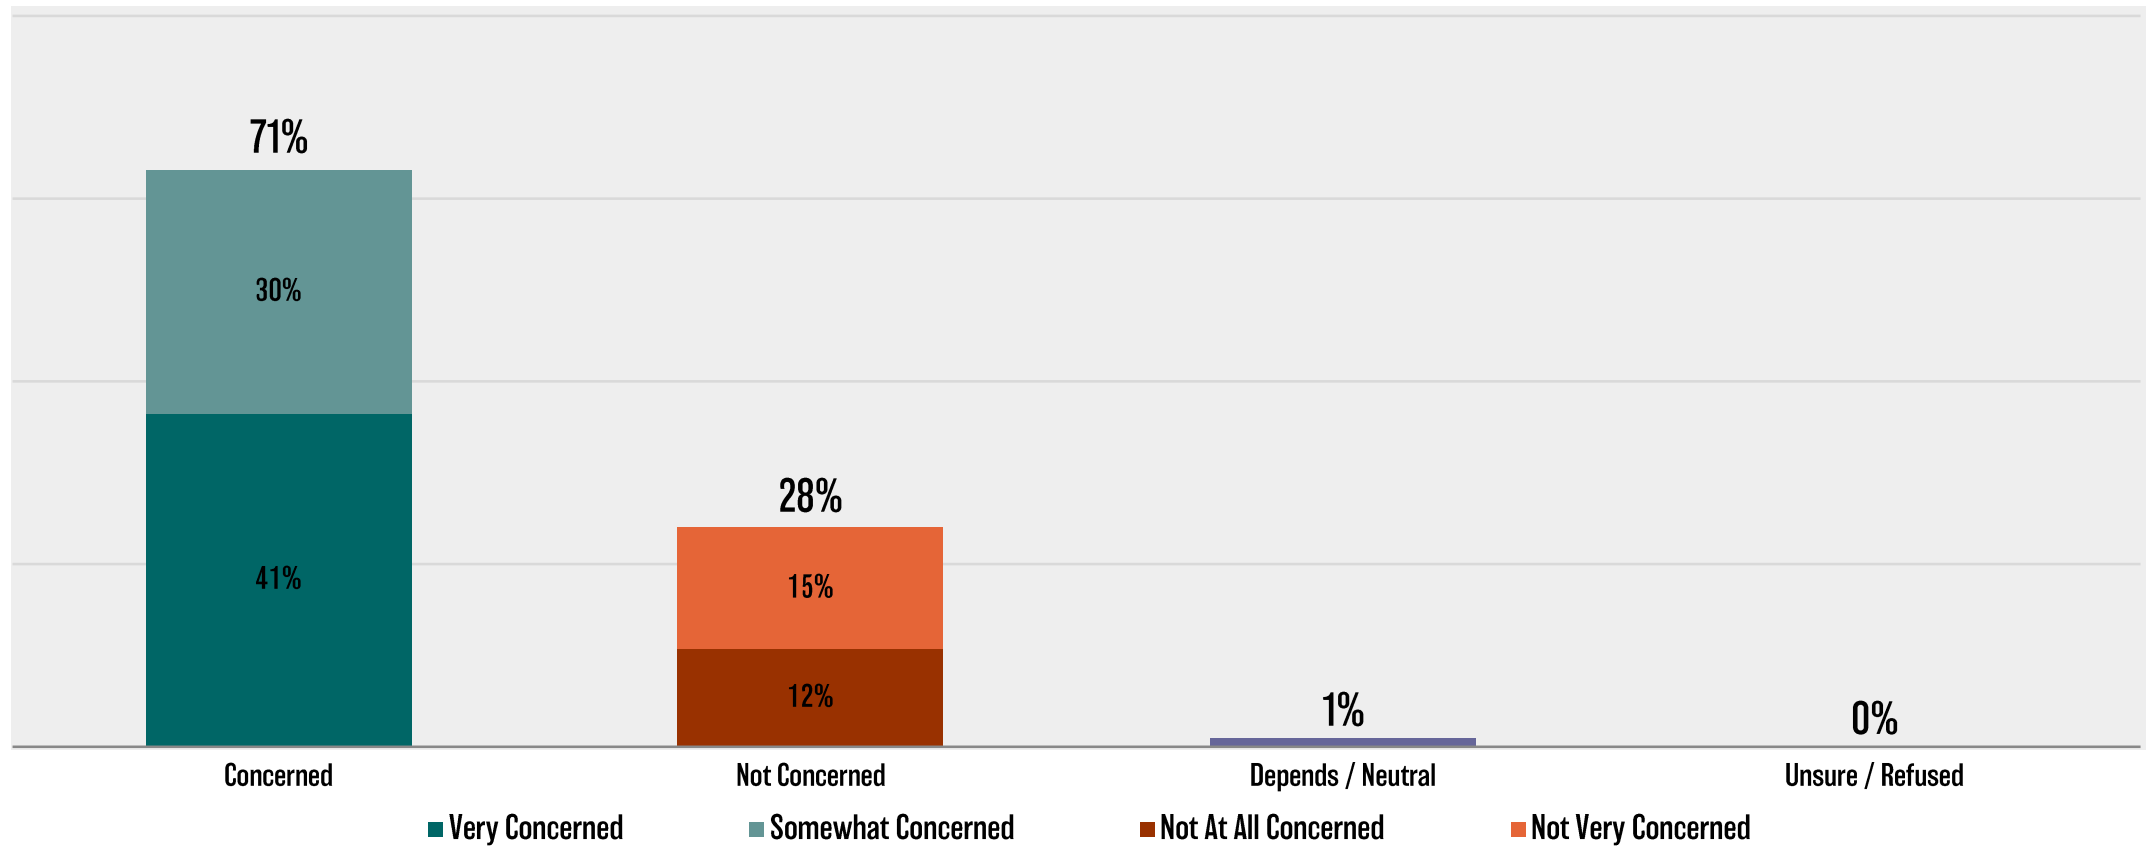

In general, do you think things in the United States are headed in the right direction, or have they pretty seriously gotten off on the wrong track?

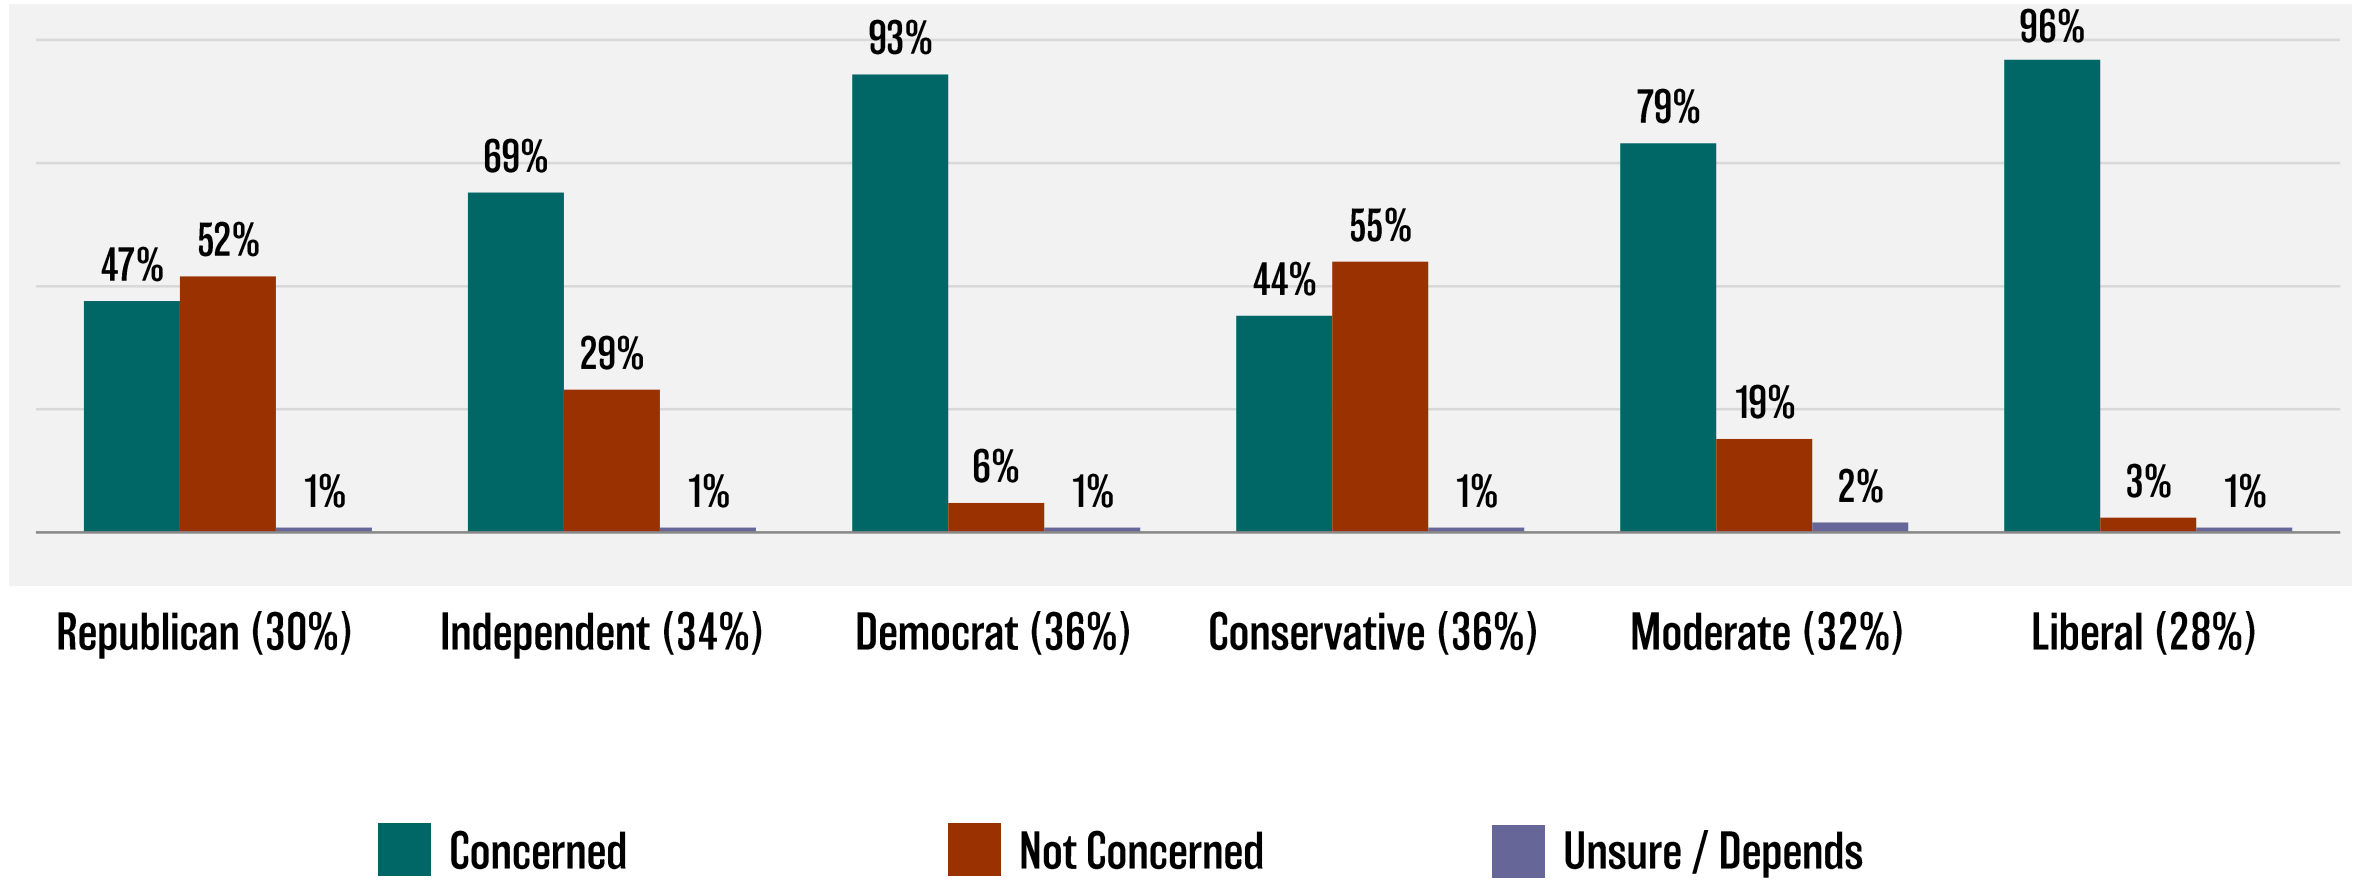

Direction of Country by Key Demographics

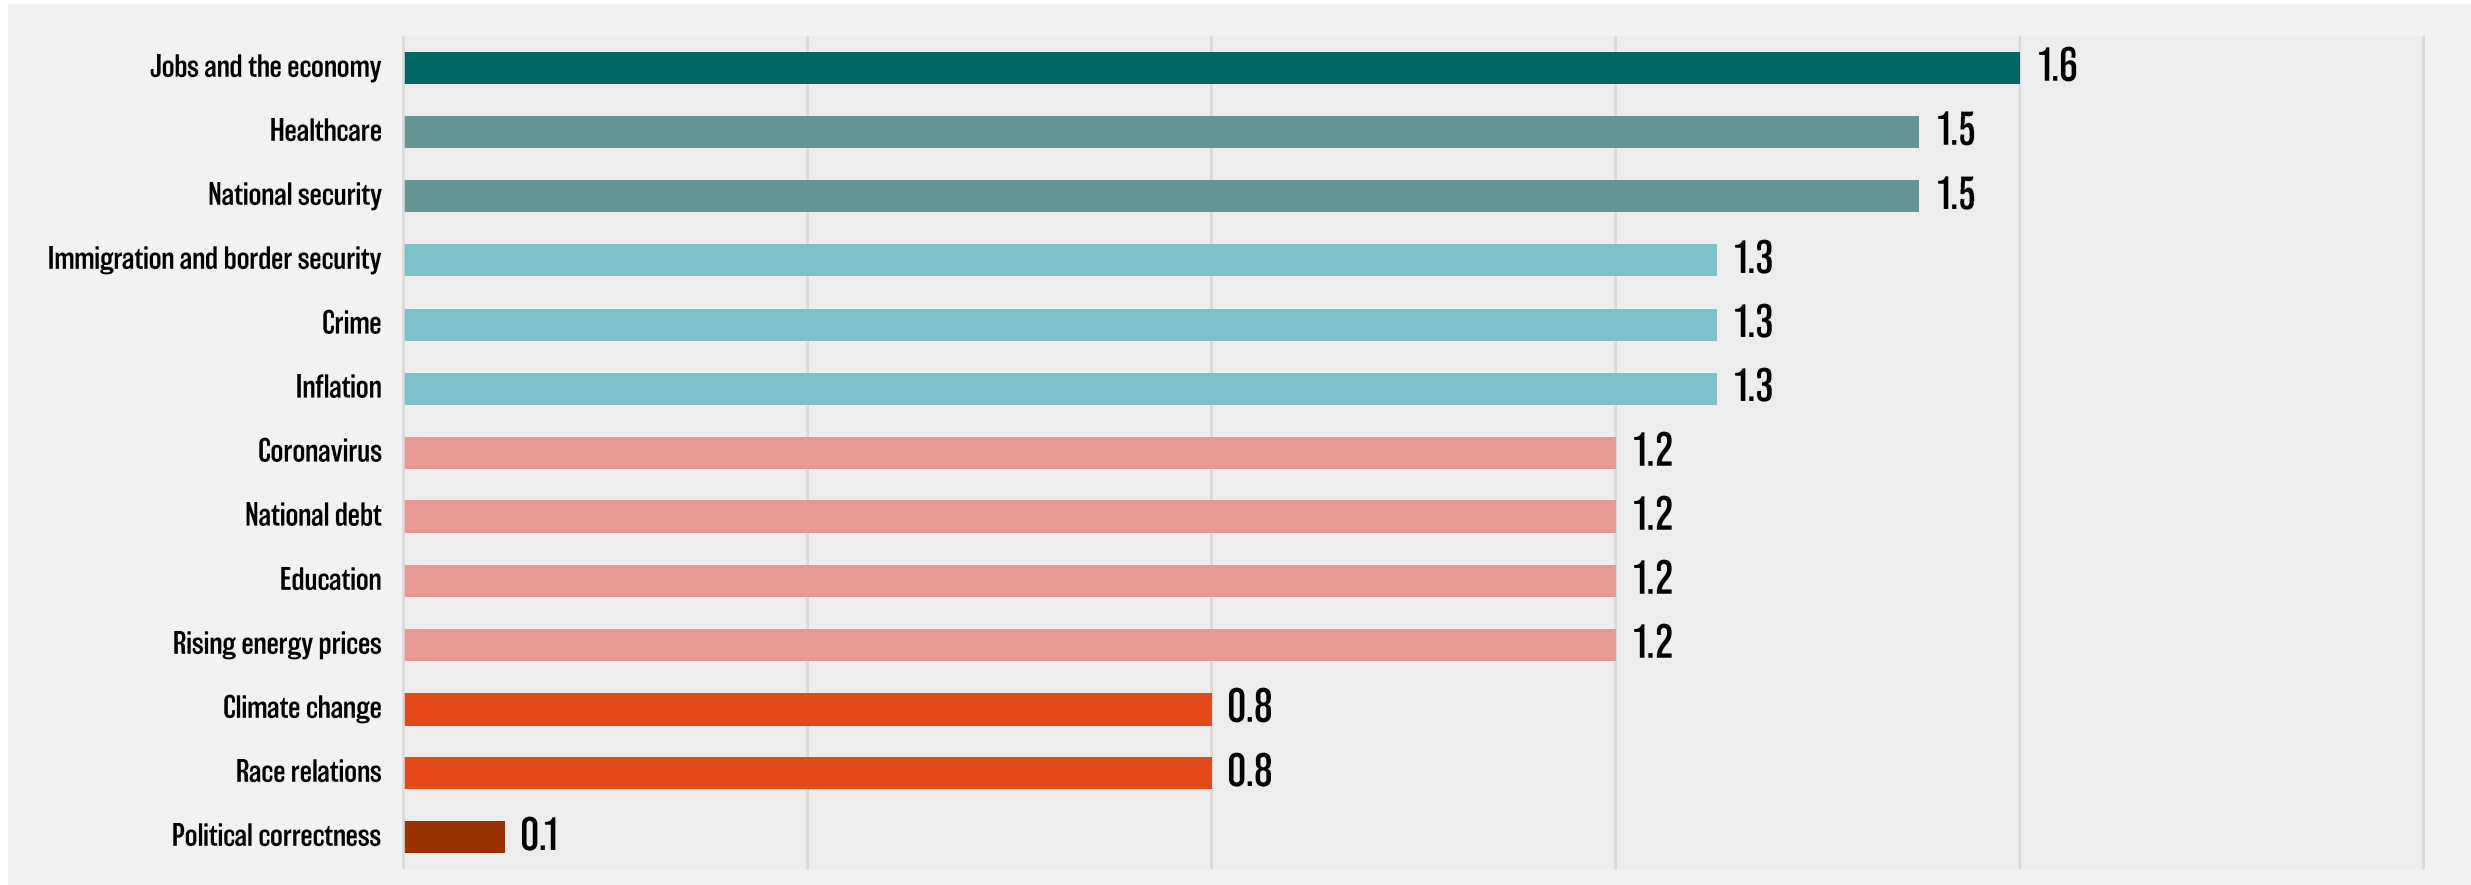

How concerned are you about climate change?

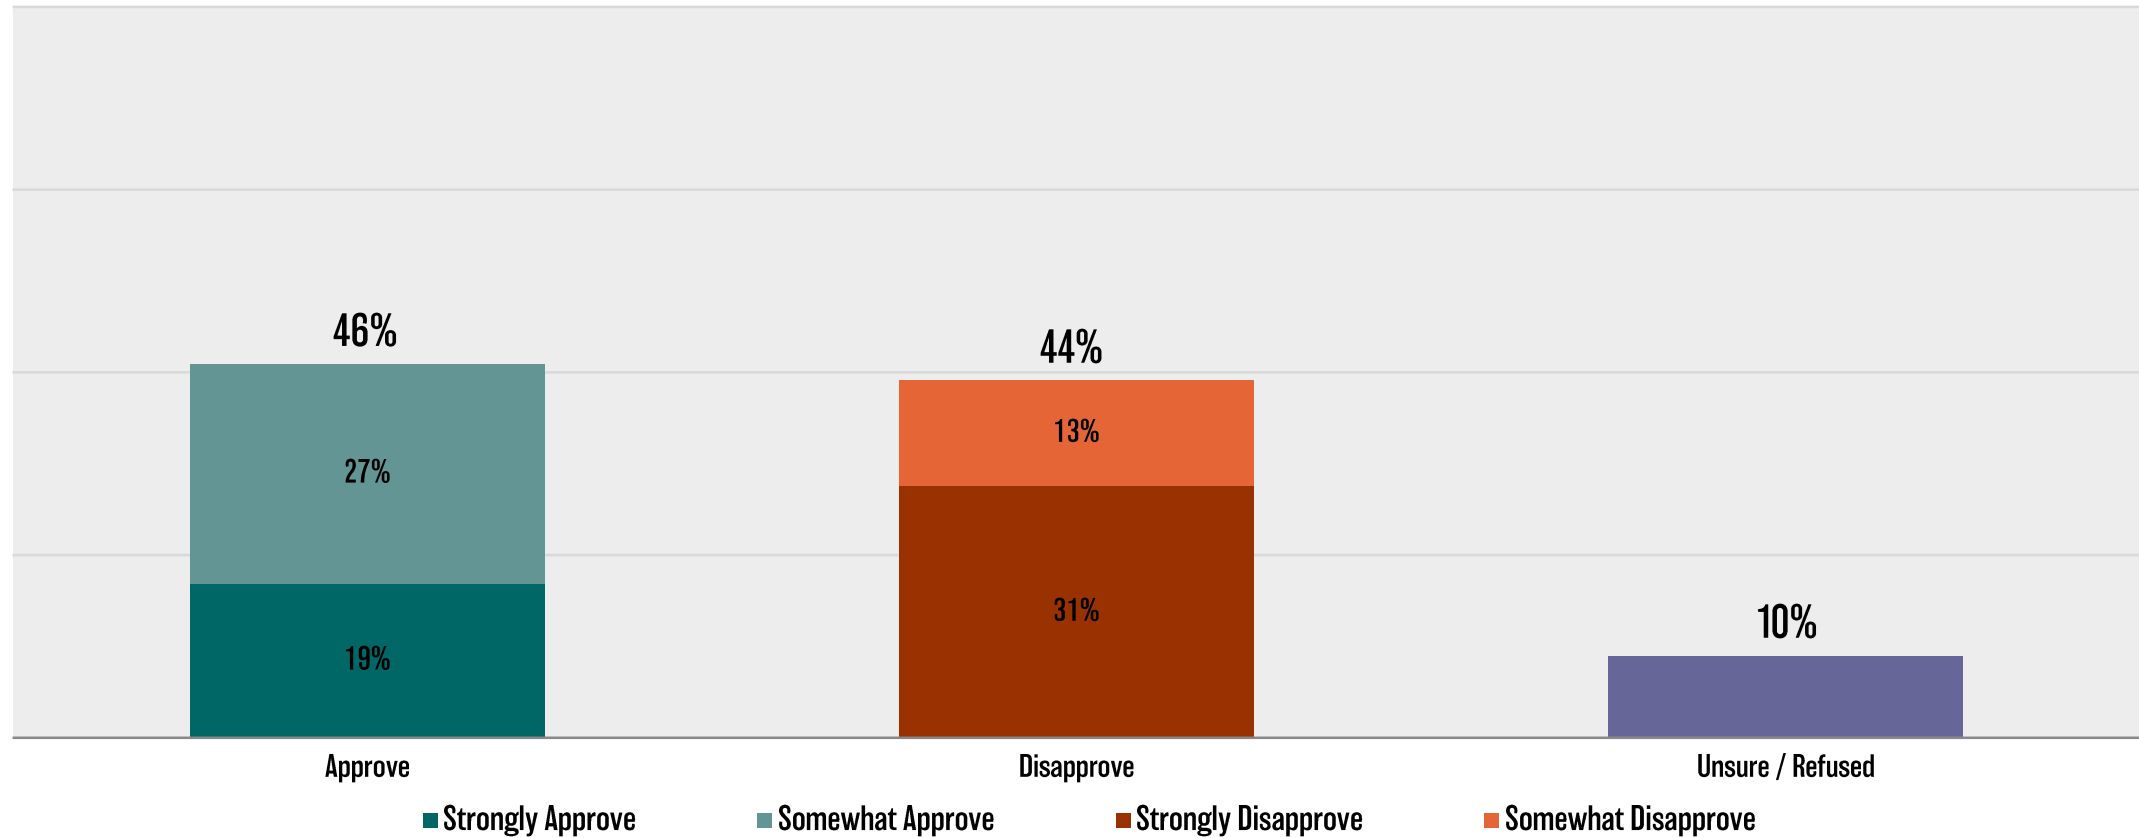

Concern about Climate Change by Key Demographics

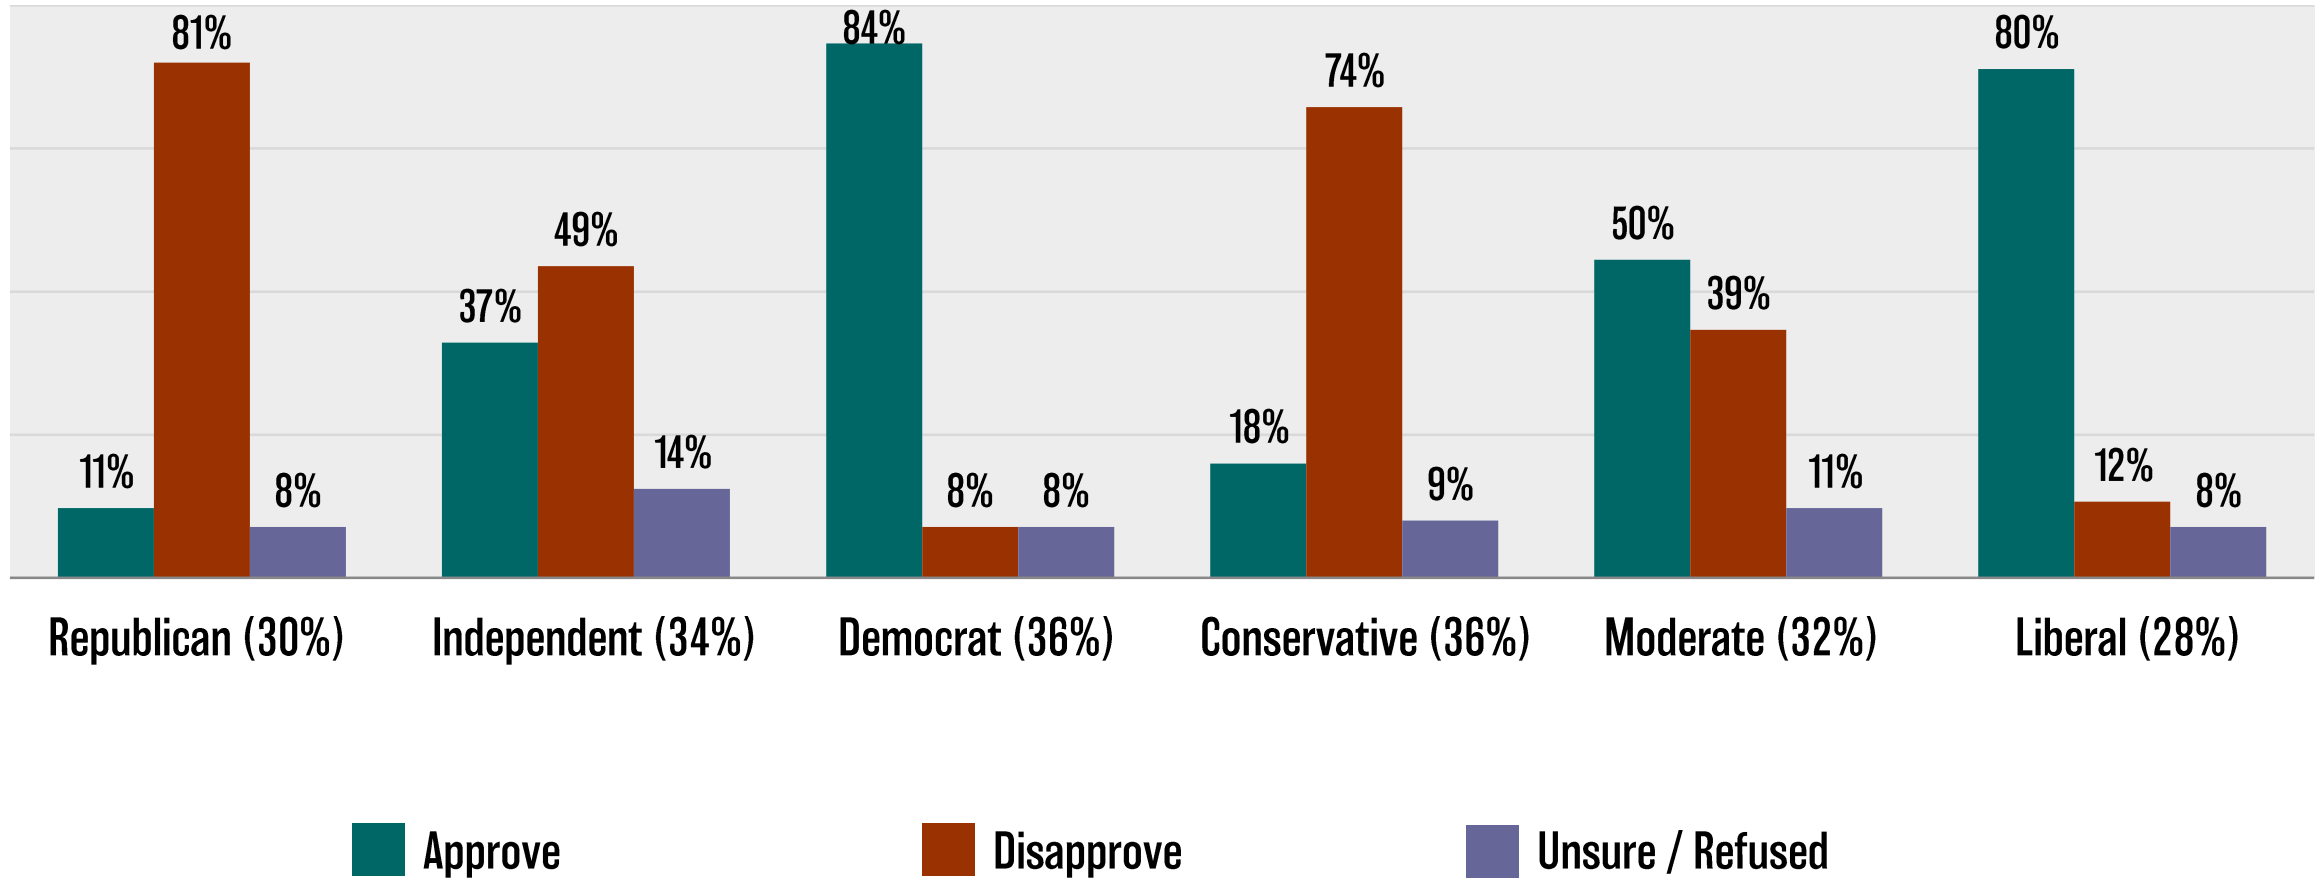

You will now read a series of issues. Please indicate using the following scale whether the issue is important or unimportant when considering your vote.

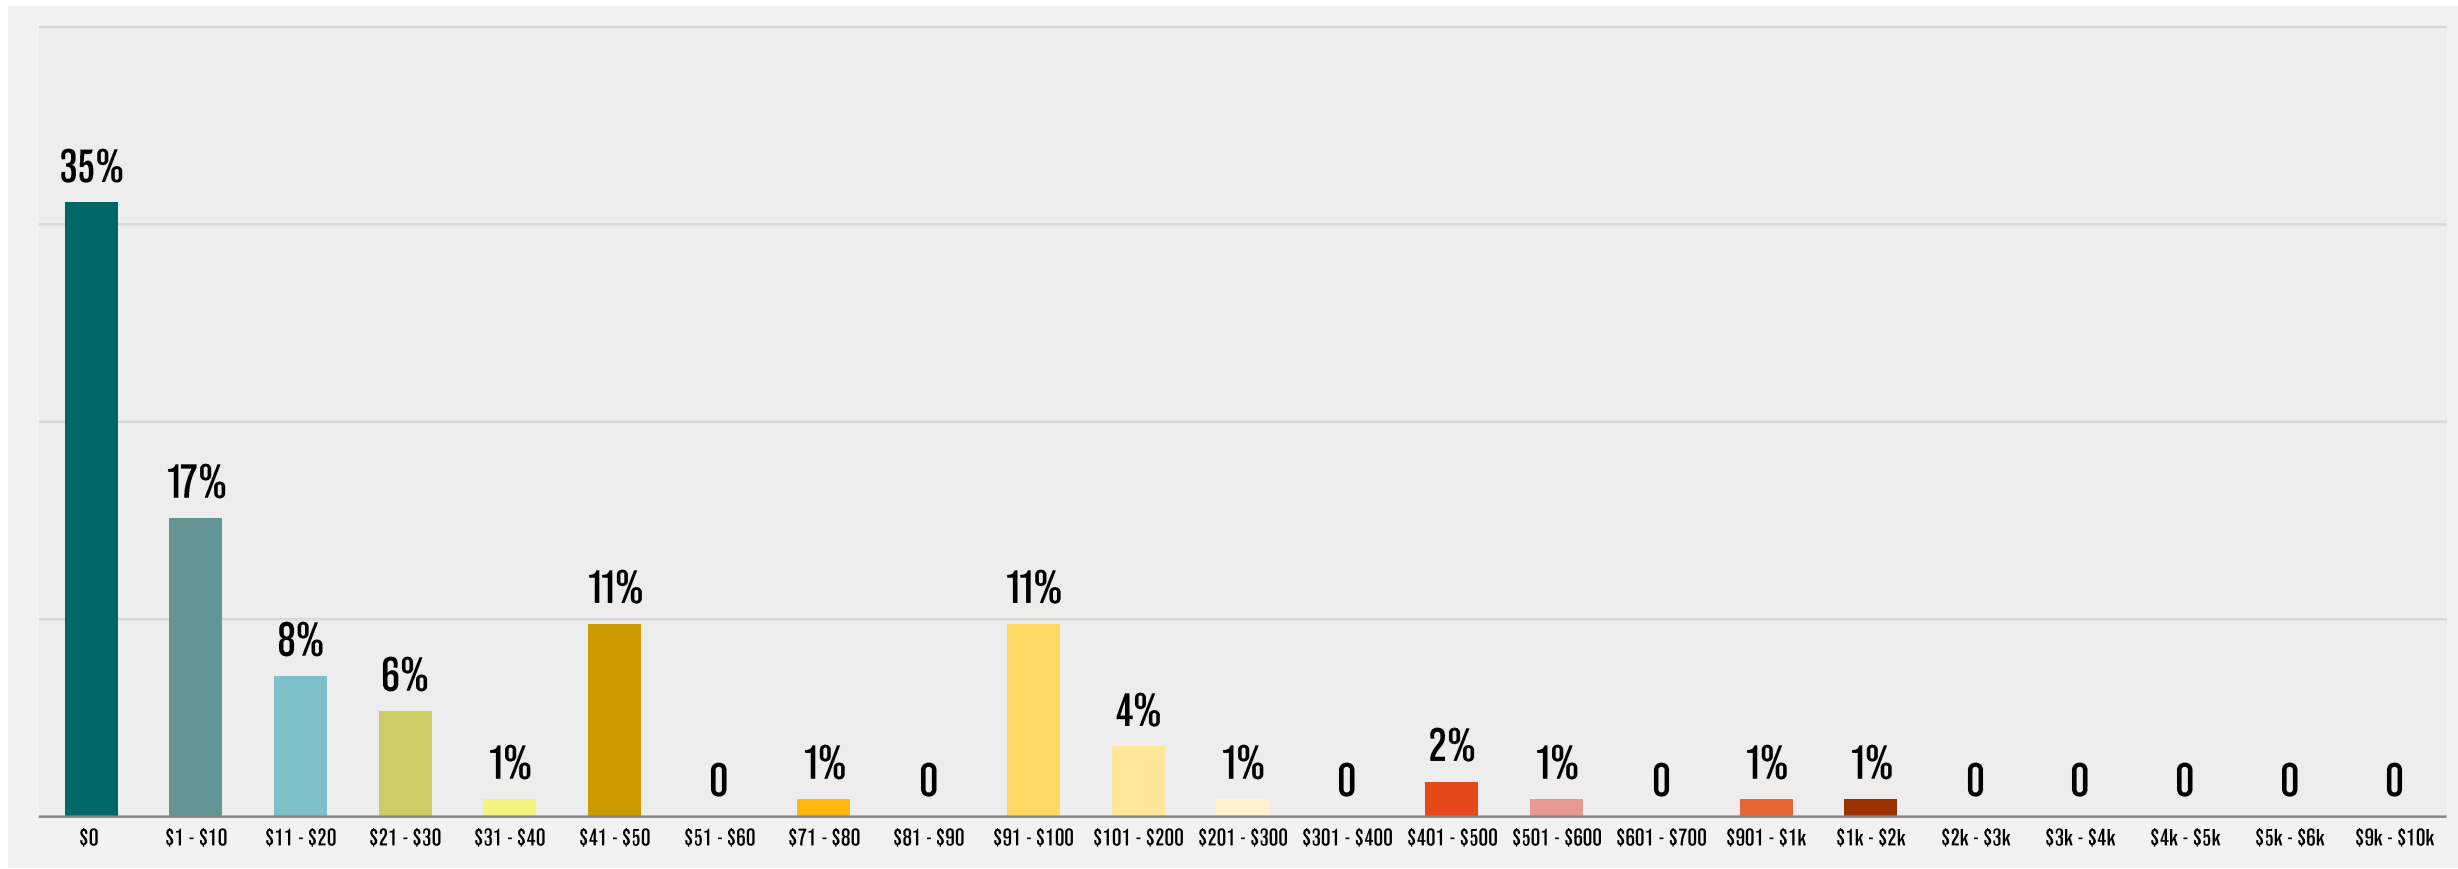

Do you approve or disapprove of the way Joe Biden is handling climate change?

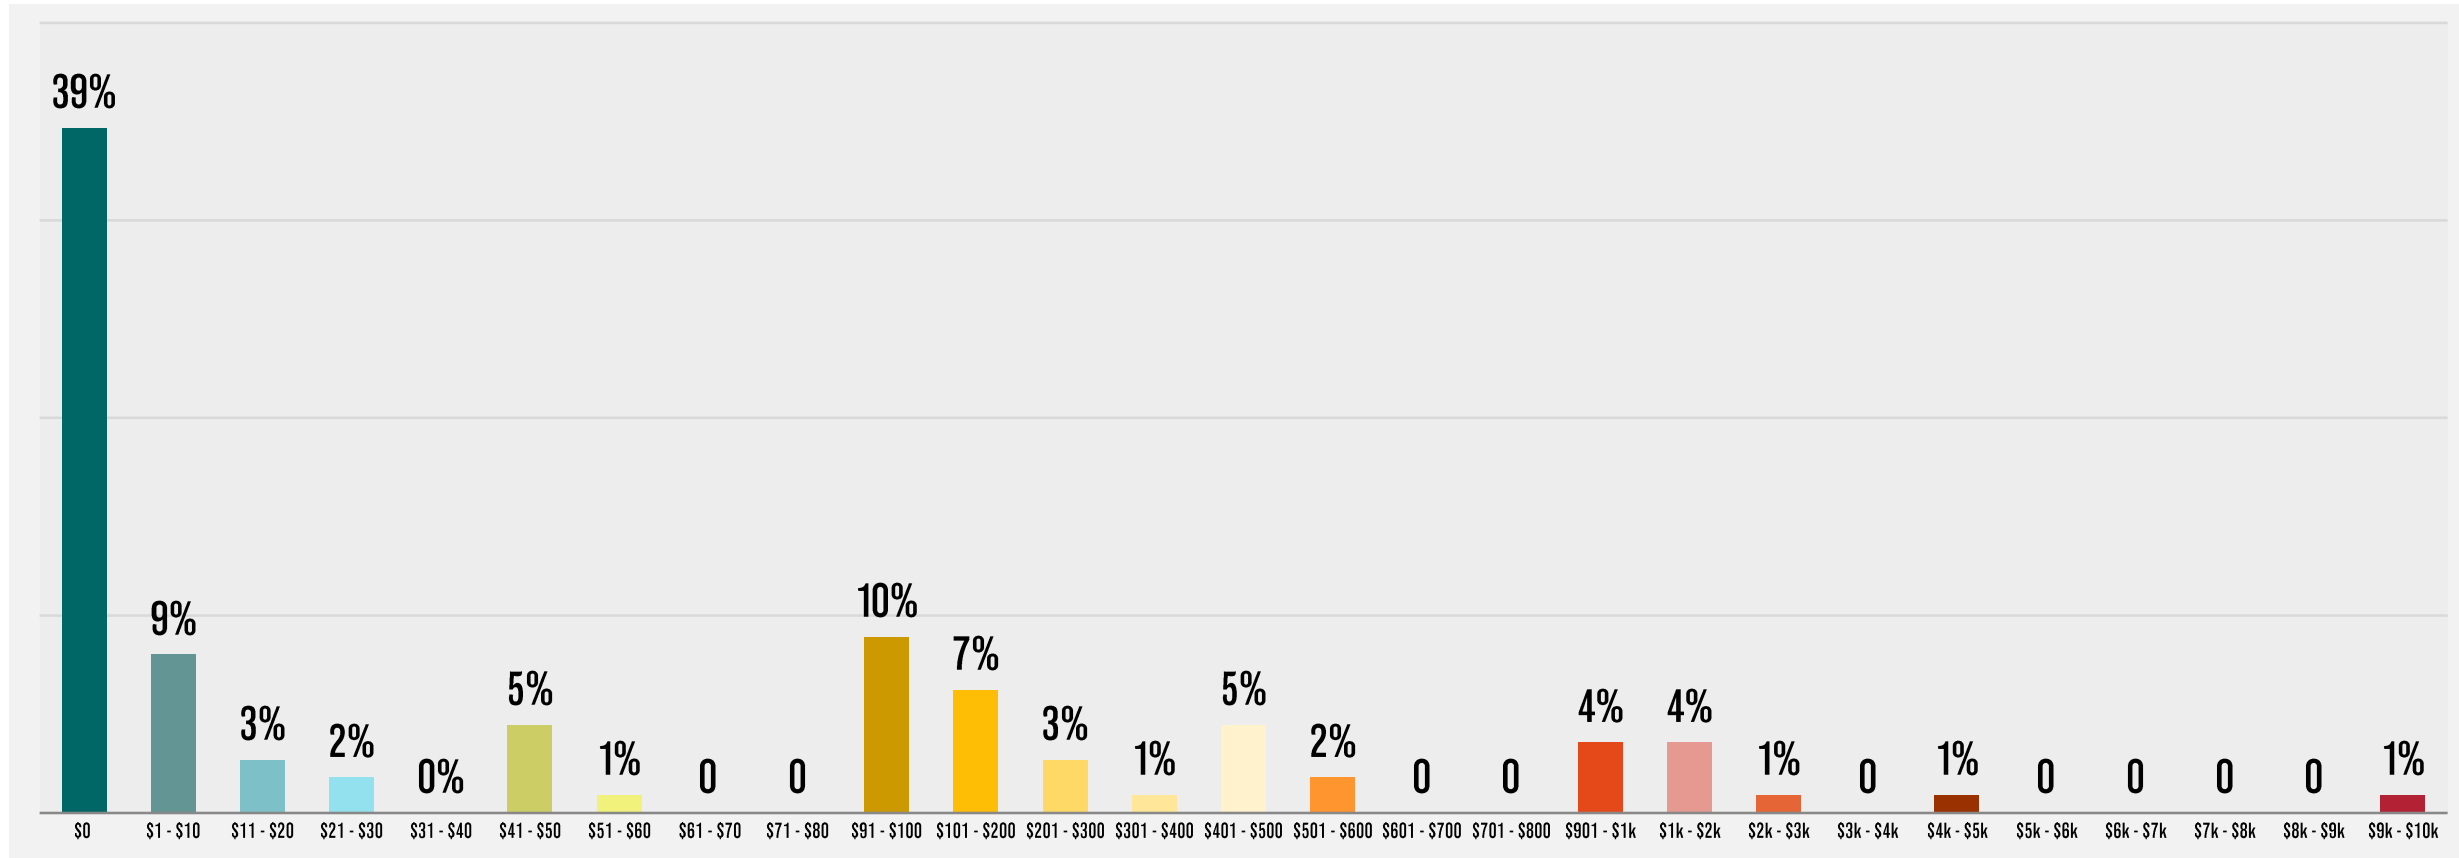

Approval of Biden's Handling of Climate Change by Key Demographics

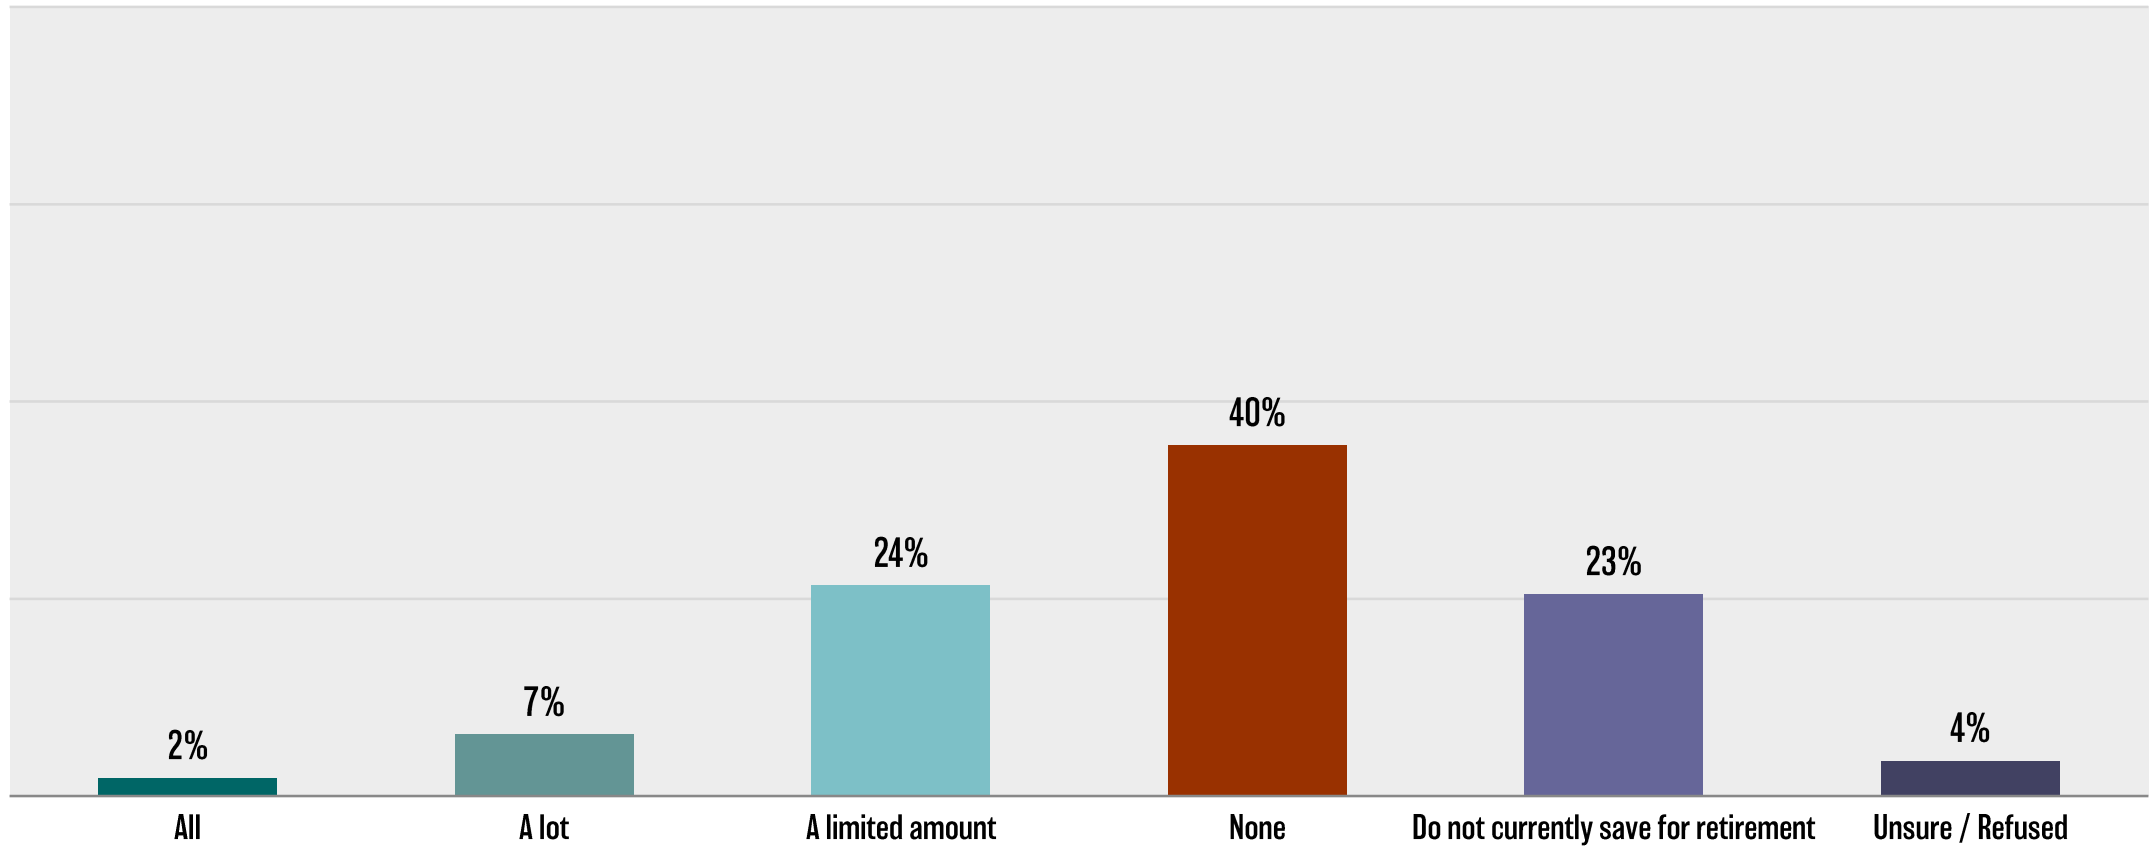

How much of your own money would you be willing to personally spend each month to reduce the impact of climate change?

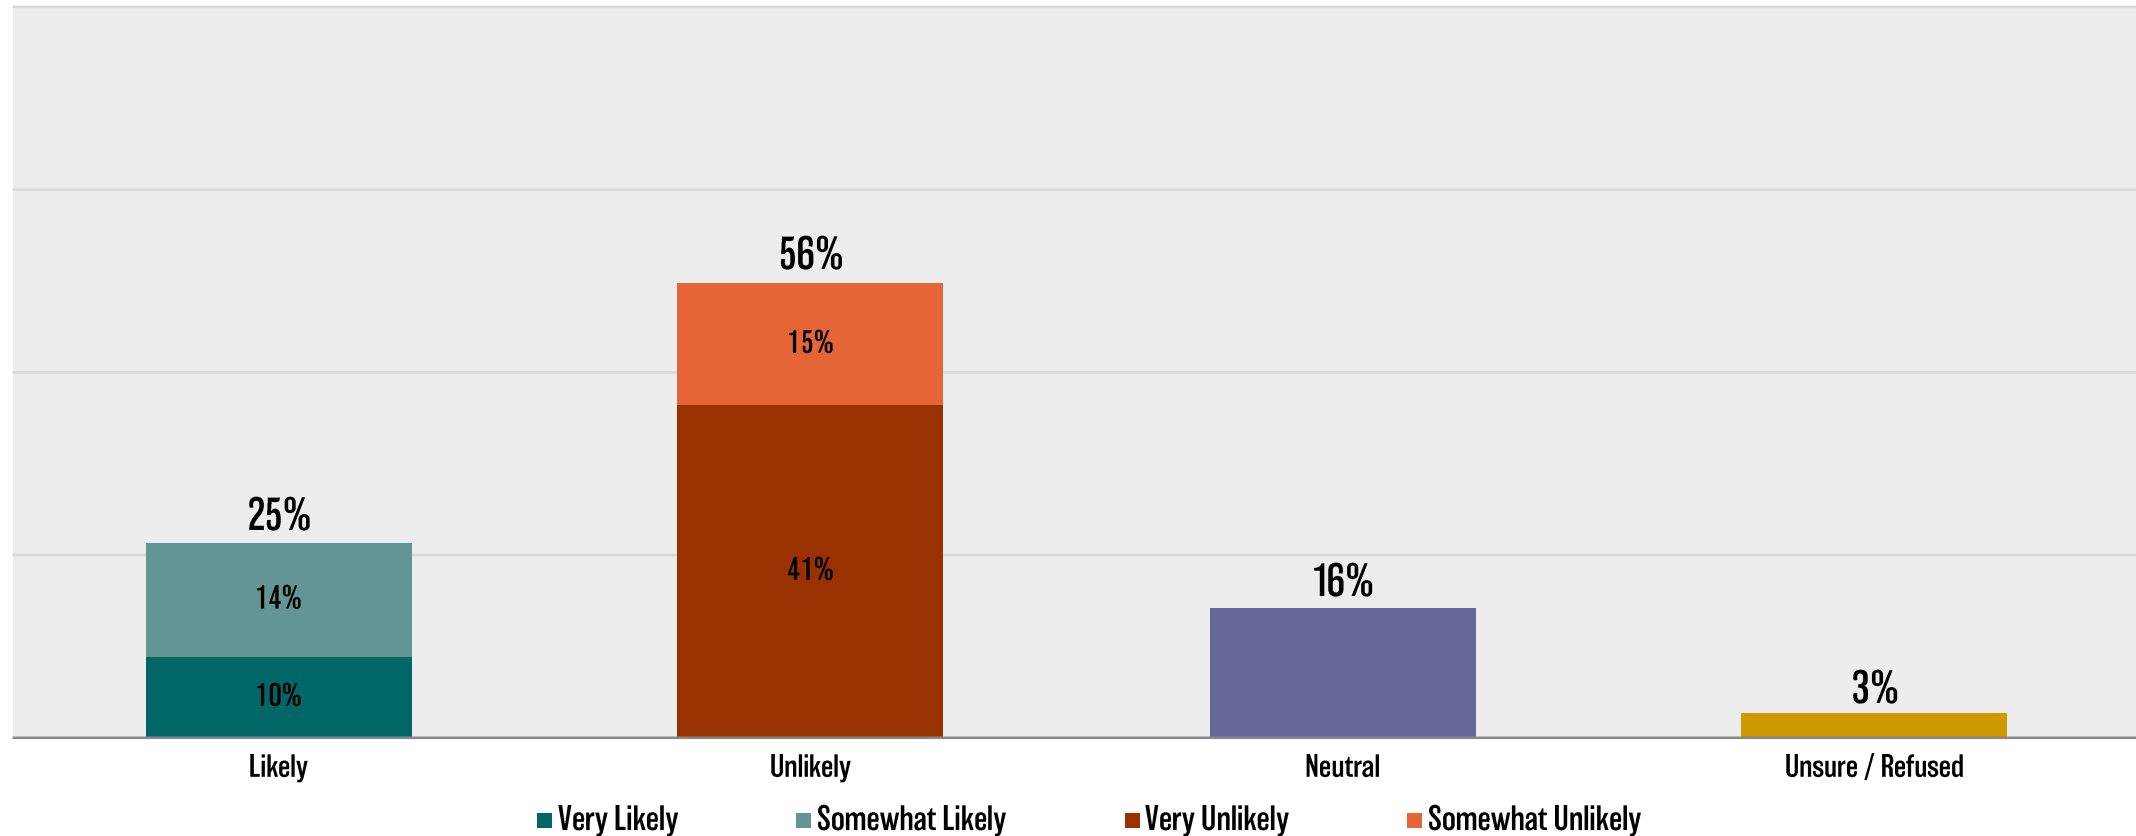

Congress is considering policies to address climate change that will raise the price of electricity and gasoline. How much more are you willing to spend for electricity or gasoline annually on climate policies than you already spend?

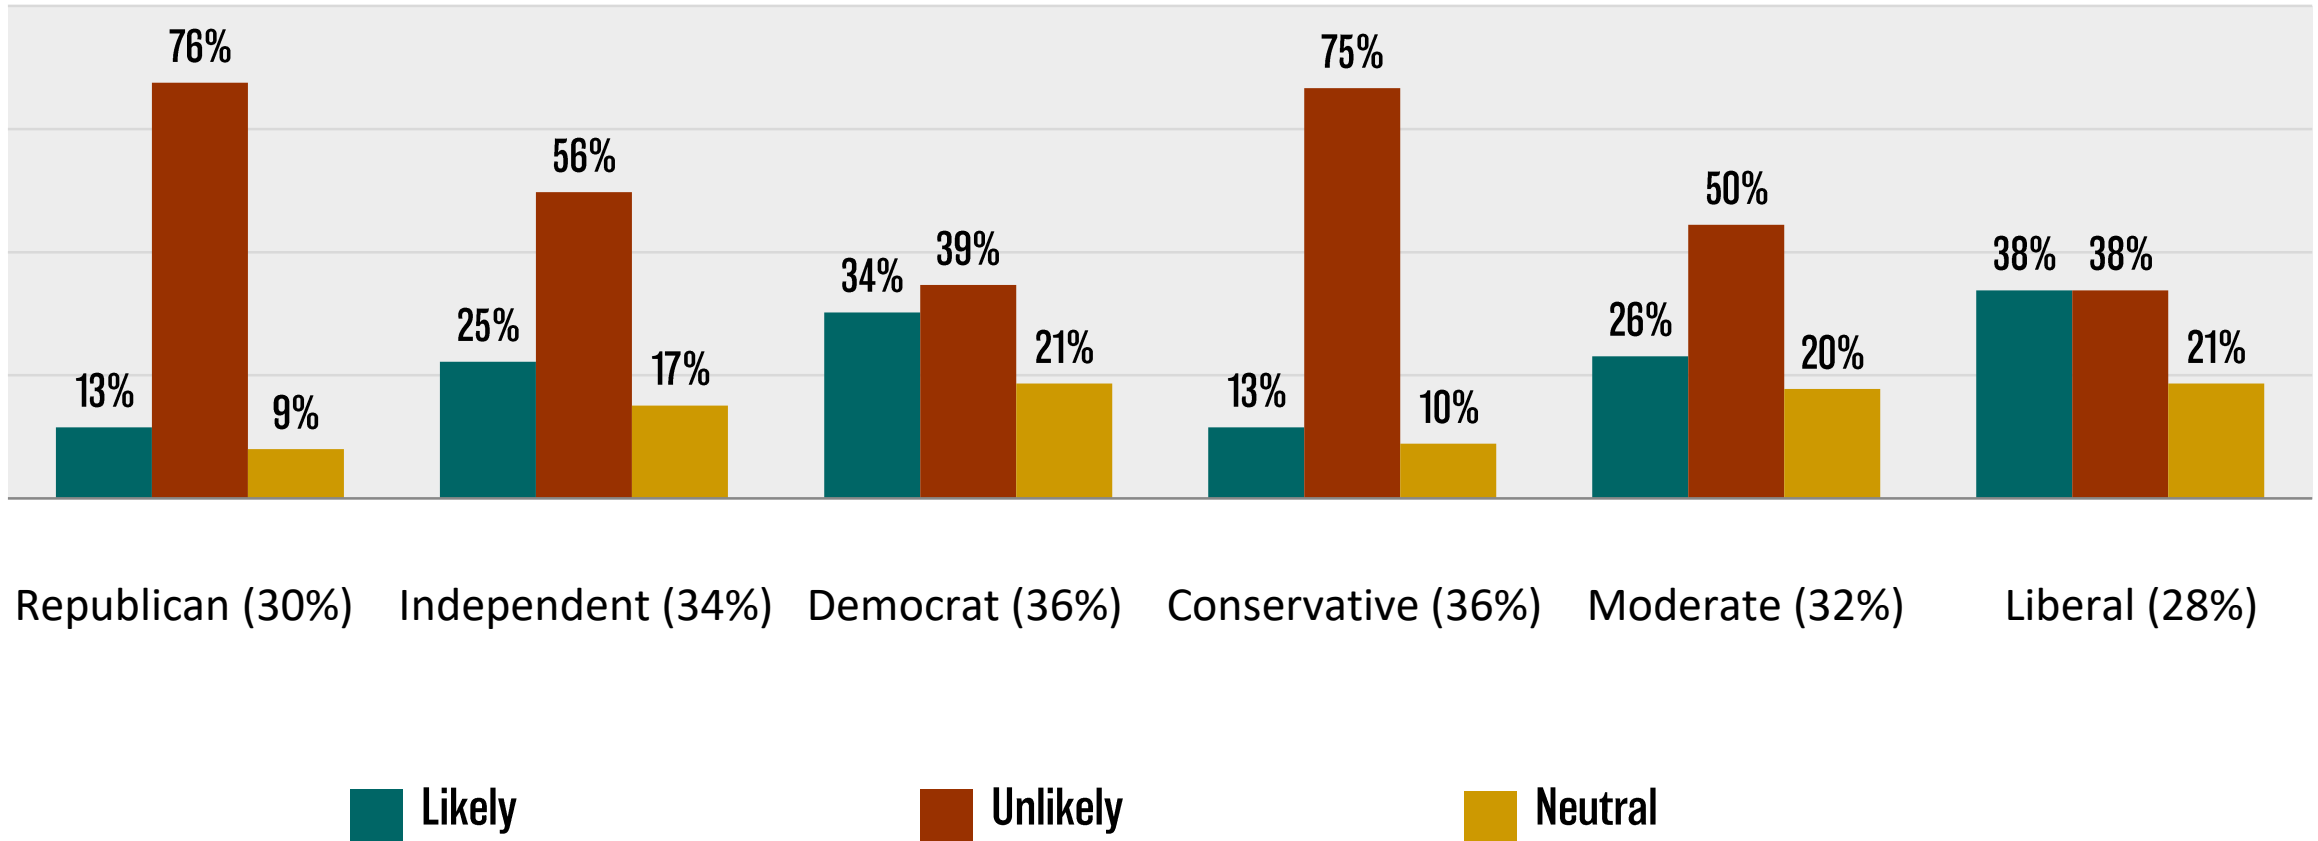

If you currently save for retirement or higher education expenses, how much of that savings would you be willing to divert toward immediate climate change spending?

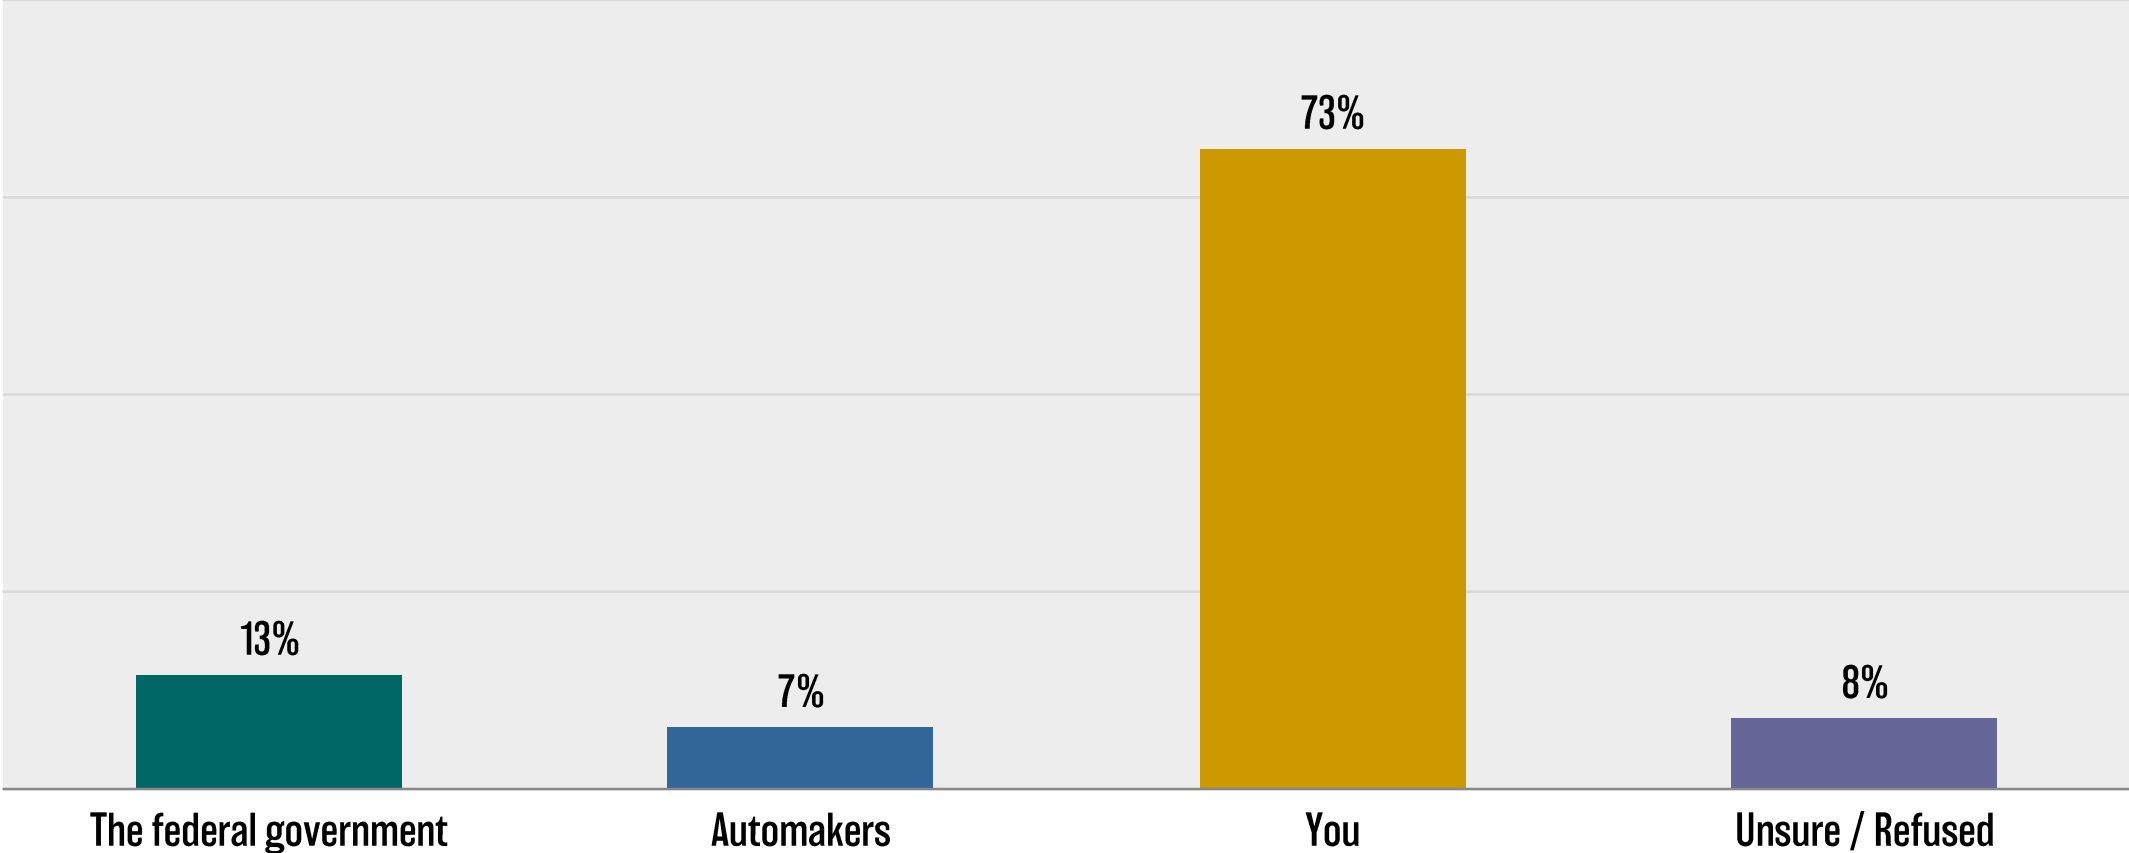

How likely are you to spend extra money to replace your gas-powered car with an electric vehicle?

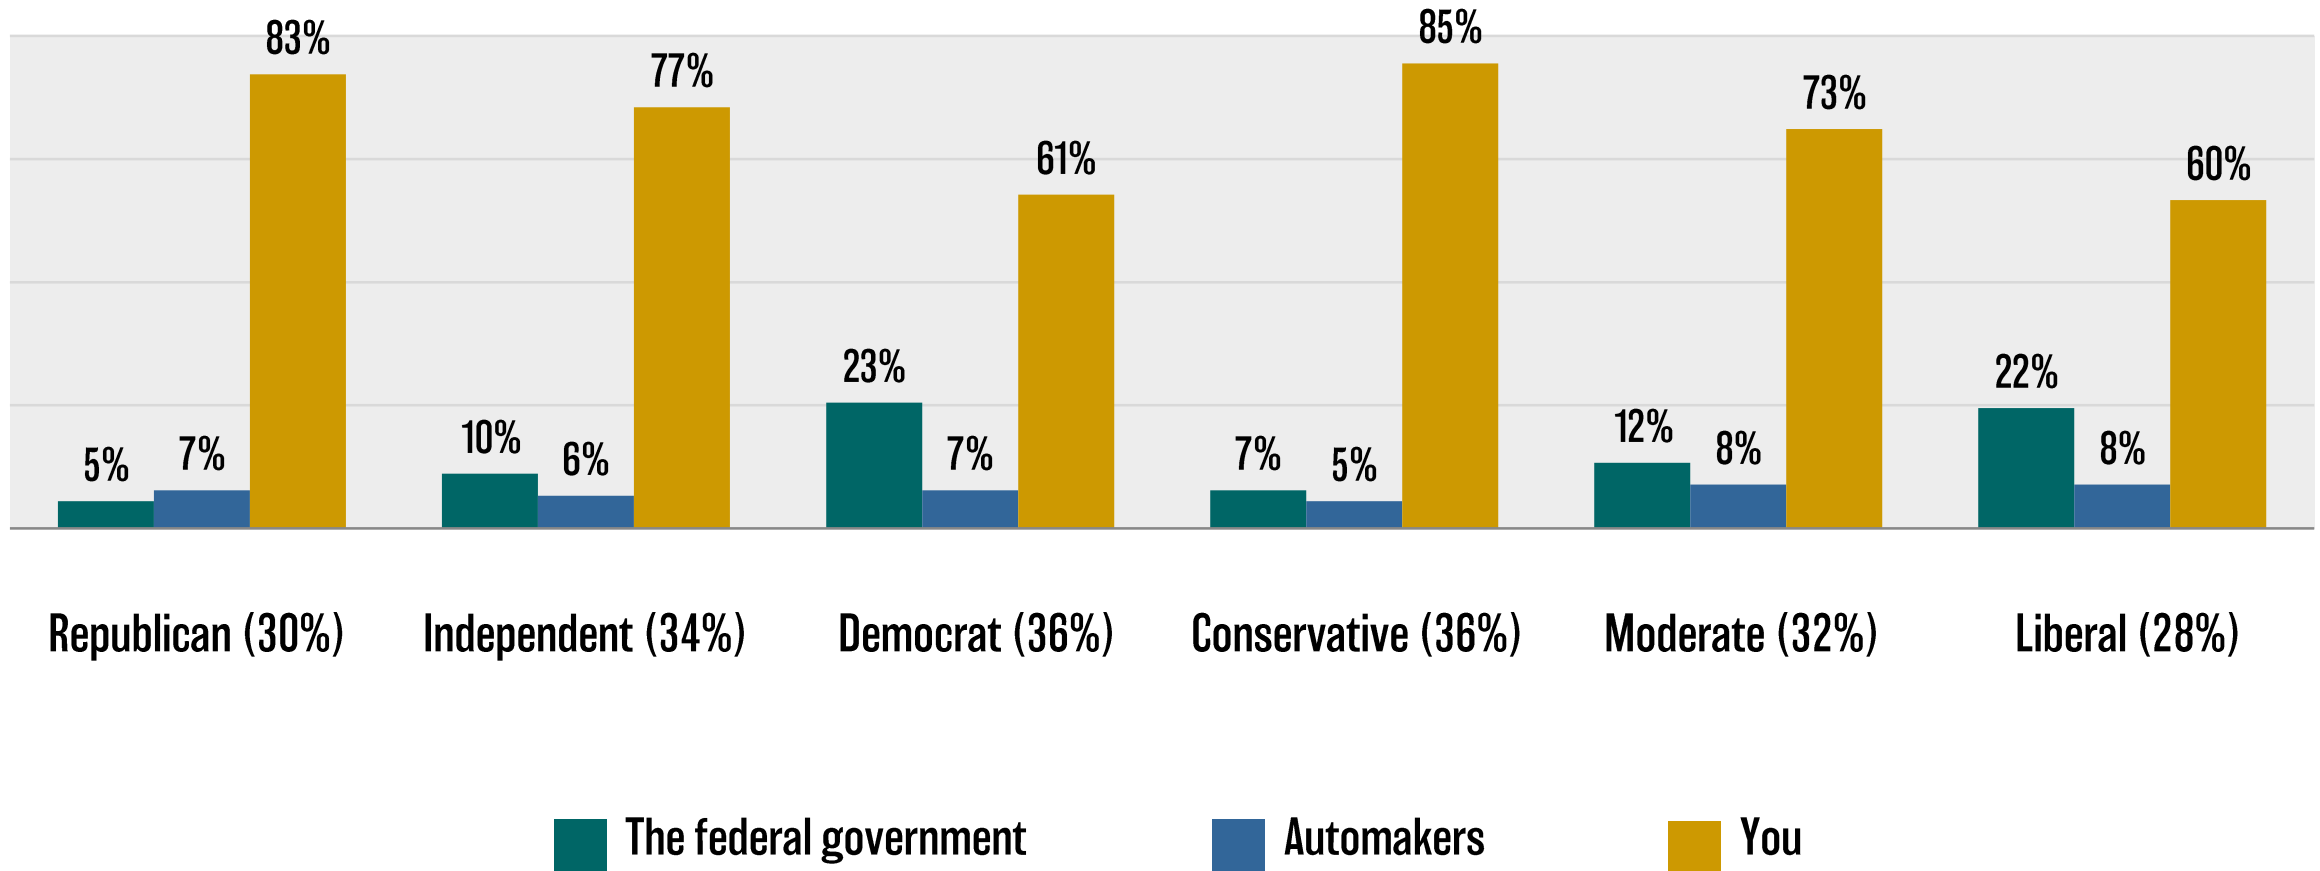

Likelihood of Spending Extra on Electric Vehicle by Key Demographics

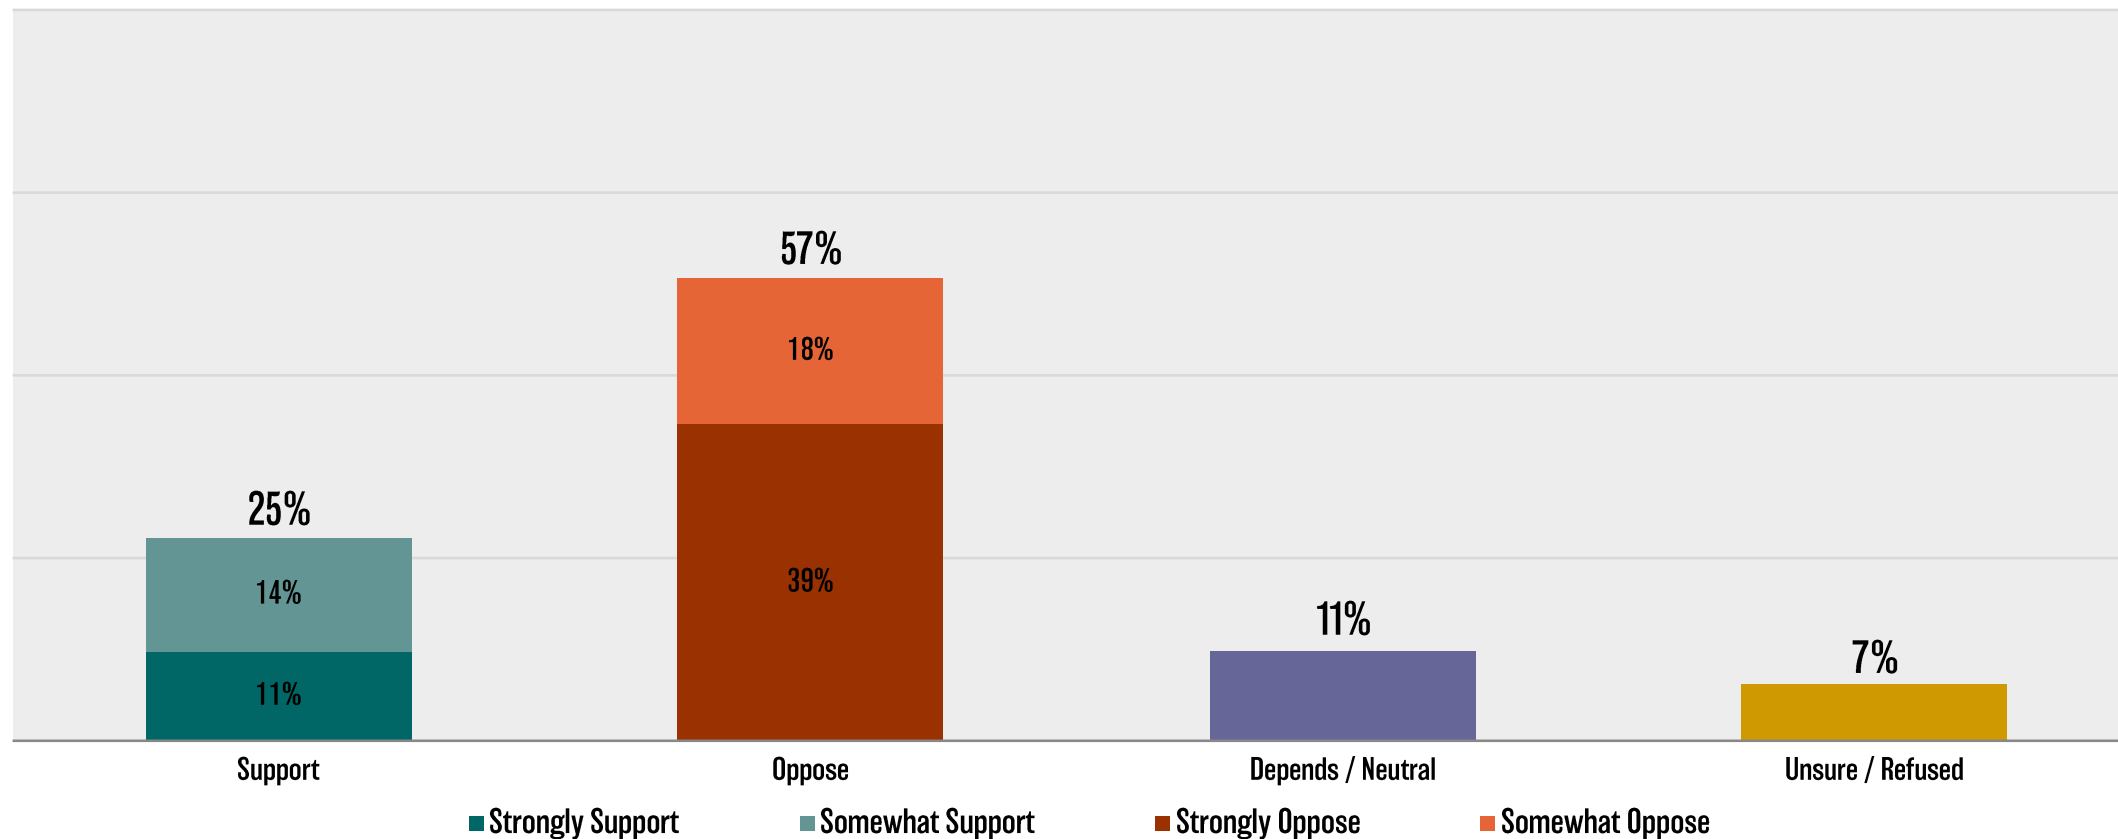

The Biden-Harris Administration is working with automakers and the state of California on proposals to phase out the production of gas and diesel powered vehicles, so that drivers will be limited to buying Electric Vehicles. Who do you think should make the decision of what type of car you can buy?

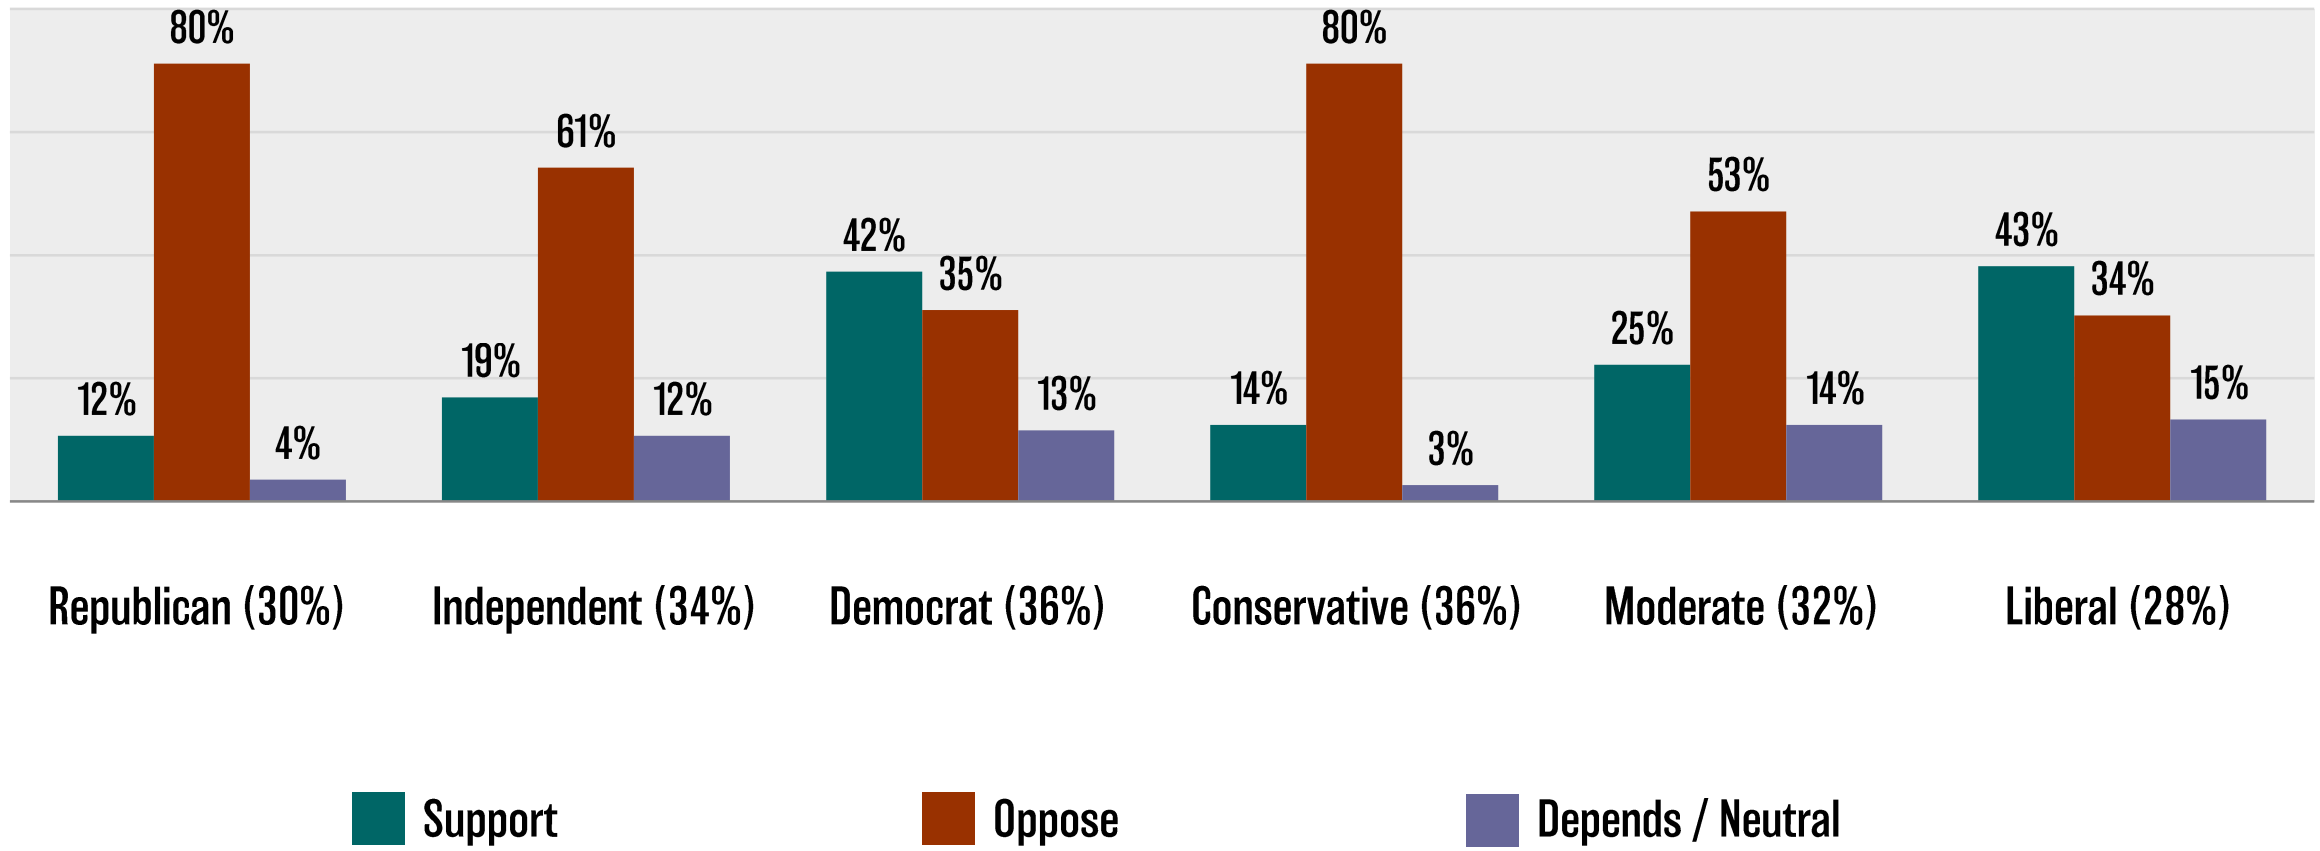

Who Should Make the Decision on What Car to Buy by Key Demographics

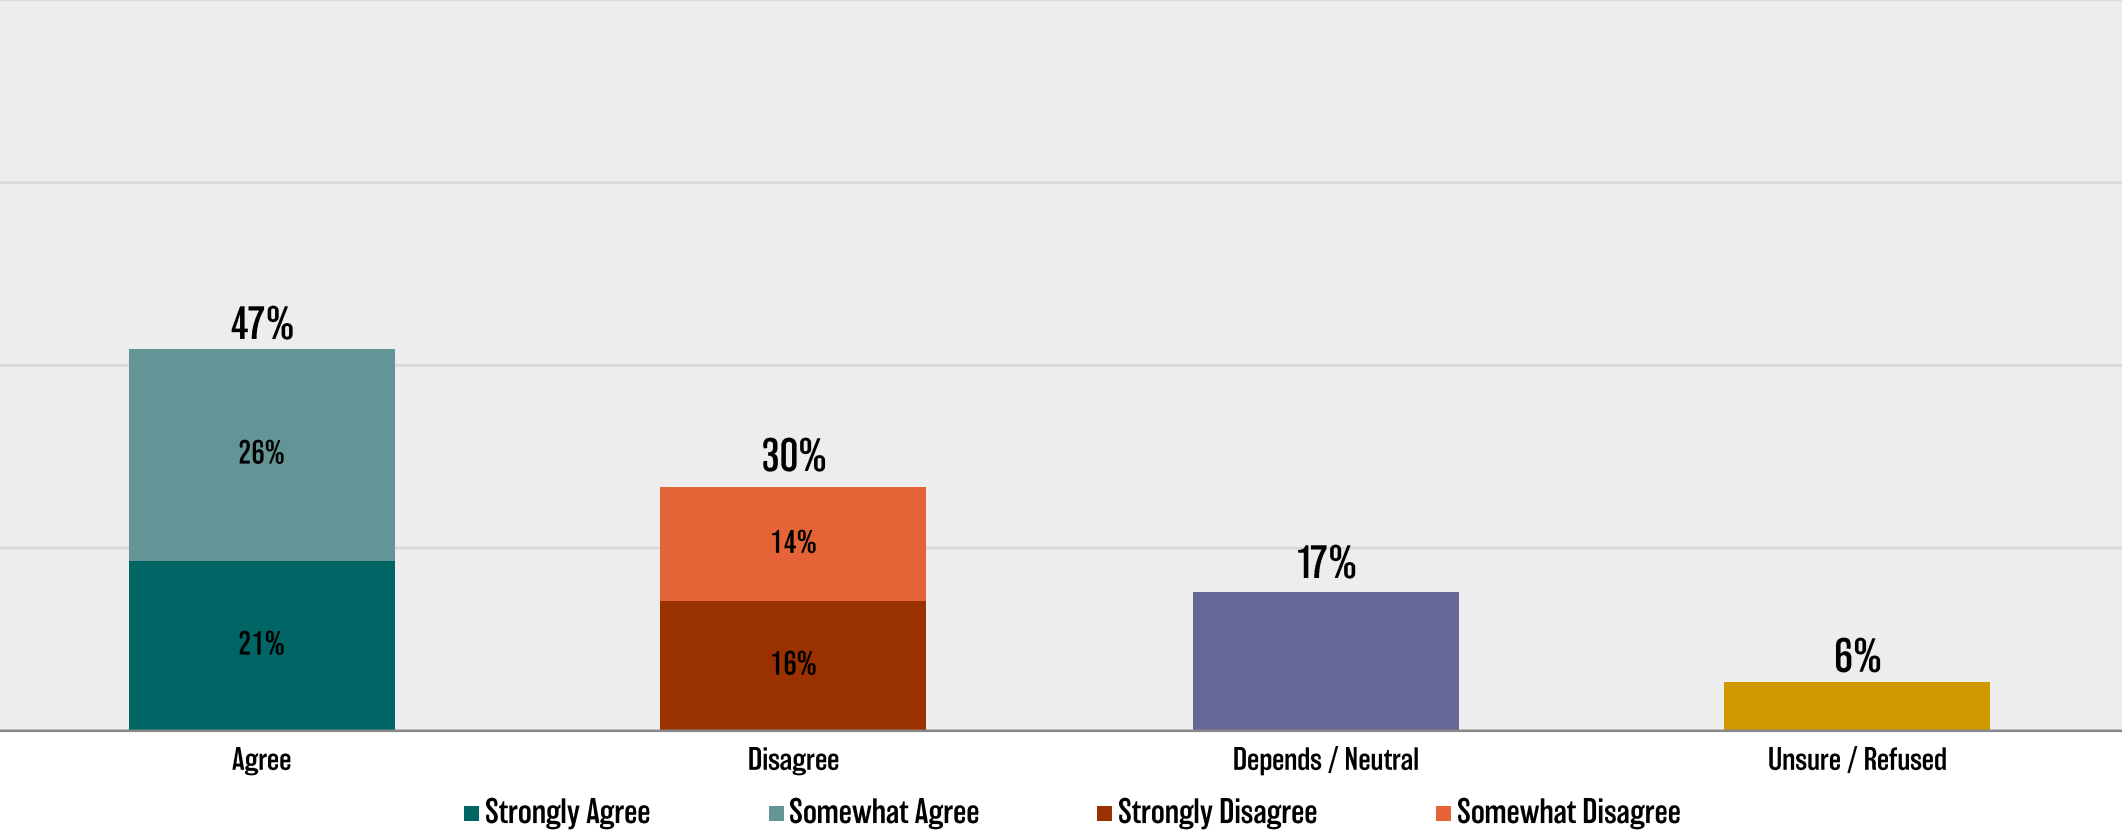

The Biden-Harris Administration is working on a rule that would impose more stringent fuel economy mandates for vehicles sold in the United States. One effect of this rule would be to limit consumer choice and undermine vehicle safety. Do you support or oppose such a rule?

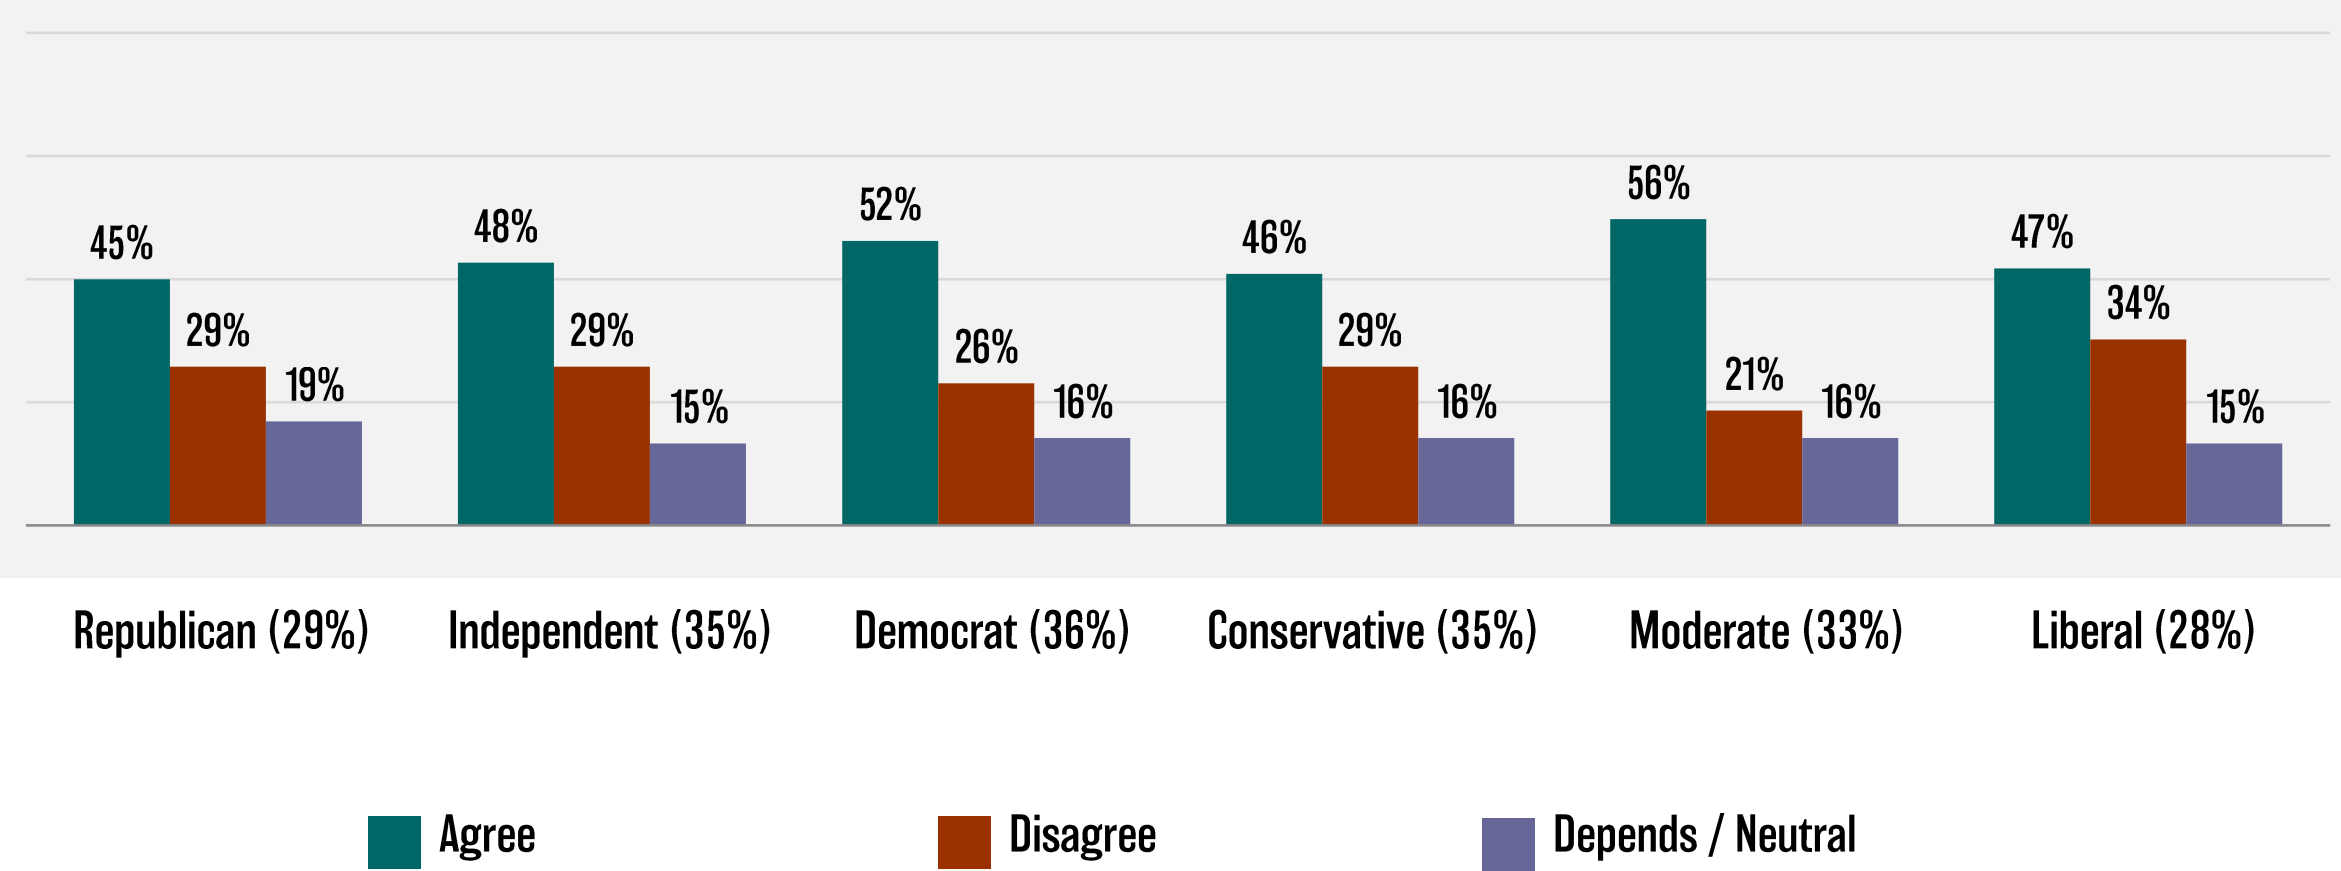

Support of Fuel Economy Mandates by Key Demographics

Do you agree or disagree with the following statement: The United States should only increase funding for climate change initiatives if other nations such as China, India, and Russia agree to enforce the same regulations and laws that the United States follows.

The U.S. Should Only Agree to Climate Regulations if Others Do by Key Demographics
