THE SURGE

BY THE COMPETITIVE ENTERPRISE INSTITUTE

Happy Easter,

The Surge will be back next week to continue providing you timely analysis on the latest energy and environmental developments.

In the meantime, please be sure to check out these articles and reports:

- [The House Passes Anti-Carbon Tax Resolution: CEI Analysis](#), Daren Bakst, CEI

Important Excerpt: *“The legislators who voted in favor of this anti-carbon tax resolution should be commended. If they act consistently with their vote today, they will strongly oppose any carbon tax-related legislation, including the PROVE IT Act. That’s good news for Americans who don’t want Congress imposing massive new taxes, driving up prices, or punishing energy use.”*
