THE SURGE

BY THE COMPETITIVE ENTERPRISE INSTITUTE

Happy Fourth of July!

CEI's energy and environment team wants to thank you for working with us to help advance freedom.

The far left's energy and environmental policies are an endless attack on the reliability and affordability of energy, individual freedom, and private property rights. But together we are fighting back and proactively advancing an agenda that respects freedom and recognizes that humans are the ultimate resource.

Here are some important developments that you should be aware of:

One Big Beautiful Bill. As of this writing, the House is poised to pass [H.R. 1](#), the One Big Beautiful Bill Act. While much more is required to undo the Green New Deal, this legislation, among other things, repeals or rescinds funds for many of the problematic IRA "green" subsidies that are a key part of this radical agenda. There is still more to be done to dismantle the IRA subsidies. Further, to go after the Green New Deal, we must also go after overreaching regulation.

Two Major Regulatory Comment Periods. We are now in the middle of the comment periods for the repeal of Biden's Clean Power Plant 2.0 (CPP 2.0) and the repeal of the 2024 Biden EPA amendments to the MATS rule. We encourage you to get involved.

[Proposed repeal of CPP 2.0](#)

Virtual Public Hearing: July 8

Comments due: By August 7

[Proposed repeal of amendments to MATS](#)

Virtual Public hearing: July 10

Comments due: By August 11

Thank you again for your support, collaboration, and reading *The Surge*!

Yours in Freedom,

CEI's Energy and Environment Team
